

# Subject Index to Volume 216

- Abdomen**, dynamic response in partial and whole-body blast exposure, 615
- Acetylcholine**  
cardiac effects of infusions, 890  
intestinal blood flow and motility, 343  
relation to histamine in  $H^+$  secretion by gastric mucosa, 961
- Acid-base balance**, renal and hepatic gluconeogenesis in diabetes and fasting, 1207
- Acidosis**, reversible sequestration of fibrinogen in situ, 707
- Acid secretion**  
metabolic pathway of histamine in gastric mucosa, 988  
potentiation, 968
- Acids**, free fatty  
hepatic and portal metabolism, 953  
metabolism of, and chronic acceleration, 1468  
transfer across primate placenta, 143
- Acids**, long-chain fatty, lymphatic absorption, 41
- Action potentials**: *see* Potentials, action
- Adenosine**, release of, in reactive hyperemia of heart, 56
- Adenosine triphosphatase**, Na-K-activated, and pancreatic secretion, 547
- Adenosine triphosphate**  
concentrations in myocardium during stress, 1103  
effects of buffers on levels of, in atria, 853
- Adipose tissue**, effect of insulin in vivo, 98
- Adrenalectomy**, renal tubular transfer of water and electrolytes, 589
- Adrenal gland**, steroidogenesis in rats bred for juxtaglomerular granularity, 860
- Adrenaline**, traumatic swelling, 634
- Adrenergic agents**, water and salt intake induced by hypothalamic implants of, 1418
- Adrenergic responses** of hepatic circulation, 1380
- Adrenocorticotrophic hormone**  
fibrinogen response, 773  
influence of cycling, pregnancy, labor, and suckling on levels, 655
- Age**  
activity restriction and body weight loss, 1081  
body composition, 373
- Albumin-bound Evans blue dye**, equilibrium and kinetic properties, 675
- Albumin**, effect of concentration on synthesis in perfused liver, 1127
- Alcohol**  
effect on gluconeogenesis, with isolated liver perfusion technique, 756  
lobster axon potentials, 364
- Allopurinol**, hemorrhagic shock, 483, 744
- Altitude**, fructose metabolism in sea-level and high-altitude natives, 1542
- Amino acids**  
effect of uremia on uptake by liver, 1300  
effects of disuse and denervation on transport of by skeletal muscle, 1116  
effects of sugars on intestinal transport, 915  
intestinal absorption, 1  
plasma, effect of previous diet, 1020  
transport during work-induced growth of skeletal muscle, 1111  
transport in renal tubules, 1139  
*p*-Aminobenzamidine, secretory stimulation of pancreas, 812  
 $\alpha$ -Aminoisobutyric acid, transport and tissue concentration at various intestinal sites, 1131  
Ammonia, renal metabolism of, and glutamine synthetase, 1107
- Anaphylaxis**  
carotid baroreceptor activity during antigen infusion in sensitized cat, 1314  
effects on vascular smooth muscle, 1306
- Anastomoses**, arteriovenous, blood flow in mesenteric organs, 1556
- Anemia**, acute normovolemic, blood viscosity and hemodynamic responses, 638
- Anesthesia**  
influences on renal responses of foxhound to intravascular volume expansion, 1367  
sympathetic system and hemorrhage, 1322
- Angiotensin**  
antagonism by hydralazine on renal blood flow and erythropoiesis, 563  
inactivation in shock, 5  
renal *para*-aminohippuric acid extraction, glomerular filtration rate, and  $U_{Na}V$  during infusion, 554
- Antidiuretic effect** of triiodothyronine in hypophysectomized rat, 139
- Antigen**  
carotid baroreceptor activity during infusion of, in sensitized cat, 1314  
release of histamine from mast cells, 453
- Antihemophilic factor deficiency**, 1170
- Antiplatelet activity** in human platelets, 508
- Antrectomy**, gastric histidine decarboxylase activity, 1051
- Aplysia**, activation of neurosecretory cells by osphradial stimulation, 1246
- Arginine metabolism** in terrestrial snails, 1003
- Arteriolar wall**, water content of, in renovascular hypertension, 22
- Atrium**  
contractions, influence of manganese and ouabain on calcium action, 244  
effect of energy availability on protein synthesis in isolated, 76  
effects of buffers on developed tension, membrane potentials, and ATP levels, 853
- Atrophy**, muscular, amino acid transport, 1116
- Autohemolysis**, macrocytic erythrocytes, 974
- Autonomic nerve impulses**, parotid gland secretion, 1392
- Autoradiography**, whole-body, of histamine- $^{14}C$ , 46
- Autoregulation**, evidence against oxygen being the primary factor governing, 788
- Axons**  
lobster, effect of alcohols on potentials, 364  
squid giant, excitation process under bi-ionic conditions, 130
- Baboon**, effect of serotonin on internal and external carotid artery blood flow, 50
- Barium**, reversal of effect of on gastric mucosa by potassium, 536
- Baroreceptor activity**  
carotid sinus, influence of sympathetic innervation, 321  
during antigen infusion in sensitized cat, 1314  
effect of mean pressure, 599  
effects on sympathetic nerve activities, 1330
- Bi-ionic action potential**, 130
- Bishydroxycoumarin**, blood coagulation, 429
- Bladder**, effect of cholinergic agent on sodium transport, 514
- Blast exposure**, dynamic response of thorax and abdomen, 615
- Blood**  
acute loss, response of erythropoiesis to, in hyperbaric air, 800  
respiratory function of, in Adélie penguin, 1598  
respiratory function of, in adult and fetus Weddell seal, 1595  
right atrial admixture in coronary venous, 531
- Blood-cerebrospinal fluid barrier**, kinetics of glucose transfer across, 1120
- Blood content**, regional, hemorrhagic shock, 380
- Blood flow**  
arteriovenous anastomotic, in mesenteric organs, 1556  
carotid artery, serotonin, 50  
changes in neonates in hypoxia, 1577  
coronary, calcium, 1456  
coronary, responses to hypoxia and tachycardia before and after lidoflazine, 297  
hepatic arterial and portal venous, 285  
intestinal, acetylcholine, 343  
intestinal, vasoactive agents, 386

- muscle force and electromyogram with changes in, 1075  
 myocardial, hyperbaric oxygenation, 1219  
 regional, epinephrine-induced vascular volume changes in forelimbs with controlled flow, 368  
 renal, antagonism of angiotensin by hydralazine, 563  
 simultaneous measurements of hepatic and portal venous, 946  
 skeletal muscle, 788  
 skeletal muscle, skin, and subcutaneous; effect of intravenous epinephrine, 156  
 spinal cord, effects of  $\text{PCO}_2$ , 1158  
 Blood-gas barrier, mammalian, permeability, 719  
 Blood pressure  
   aortic, effect of sudden changes in, on left ventricular  $dp/dt$ , 185  
   elevation in renal venous, intrarenal regulatory factors of salt excretion during, 1517  
   mean circulatory, effect on cardiac output, 467  
   mean, effect on carotid sinus baroreceptor response to pulsatile pressure, 599  
   response to carotid sinus stimulation, 263  
   submaxillary gland removal and hysterectomy, 1194  
 Blood vessels, temperature effects, 112  
 Blood viscosity, hemodynamic responses in acute normovolemic anemia, 638  
 Blood volume, cardiac output, 467  
 Body composition  
   diet, weight, age, and sex, 373  
   exercise and protein deficiency, 359  
 Body fat, chronic acceleration, 1468  
 Bone  
   effects of fluoride and vitamin  $\text{D}_2$  on citrate, 179  
   plasma  $^{45}\text{Ca}$  clearance by tibia, 1150  
   rachitic cortical, effects of vitamin  $\text{D}_3$  on collagen synthesis in, 1092  
 Botulinum toxin, effect on speed of skeletal muscle contraction, 1453  
 Bradycardia  
   bacterial endotoxin, 249  
   submersion, in newborn elephant seal, 220  
 Brain  
   effect of ischemia on metabolism of in newborn mouse, 348  
   metabolism in hypoxia, 1374  
 Brisket disease, hemodynamic effects of paired-pulse stimulation, 1404  
*Bufo marinus*, passive water movements through skin in air and water, 1562  
 Caffeine, transmitter depletion and mobilization at motor nerve terminals, 621  
 Calcium  
   accumulation in ileal muscle, 215  
   coronary hemodynamic effects, 1456  
   developmental pattern of intestinal transport mechanism in newborn, 1064  
   effect of high concentration on action potential of heart, 687  
   effect of ouabain on cardiac kinetics measured by indicator dilution, 123  
   electrical activity in smooth muscle cells of ureter, 1279  
   influence of sodium on transport by small intestine, 1351  
   initiation of smooth muscle activity, 671  
   plasma clearance by tibia, 1150  
   rate of action on atrial contractions, 244  
   role of vitamin D in plasma, regulation, 254  
 Capacitation of primate sperm in foreign uterine environment, 682  
 Carbon dioxide tension, effects on spinal cord blood flow, 1158  
 Carbonic anhydrase inhibitors, effect on isolated gallbladders, 175  
 Cardiac: *see also* Heart  
 Cardiac denervation, unilateral, individual chamber sensitivity to norepinephrine after, 604  
 Cardiac output  
   after gradual prolonged hemorrhage, 1044  
   calcium, 1456  
   effect of blood volume, mean circulatory pressure, and stress relaxation, 467  
   effects of paired stimulation at rest and during exercise, 63  
   exercise, 63  
   redistribution during bilateral common carotid occlusion, 393  
 Cardiovascular changes during naturally elicited fighting behavior, 1226  
 Carotid artery, effect of serotonin on blood flow, 50  
 Carotid occlusion, bilateral common cardiac output redistribution, 393  
 Carotid sinus nerve  
   baroreceptor activity during antigen infusion in sensitized cat, 1314  
   baroreceptor reflex effects on sympathetic nerve activities, 1330  
   baroreceptor response to pulsatile pressure, effect of mean pressure, 599  
   influence of sympathetic innervation on baroreceptor activity, 321  
   mathematical model of response to stimulation, 263  
 Casein, iodinated, effect on production of vitamin  $\text{V}_{12}$  and folic acid deficiency, 11  
 Catecholamines, influence of ambient temperature on excretion, 1164  
 Celite system for measuring platelet adhesiveness in normal and bleeder swine, 1170  
 Centrifugation, chronic, water intake and urine output, 659  
 Ceruloplasmin, plasma, effect of protein synthesis, inhibitors, 340  
 Chlorine, gastric secretion models, 487  
 Cholecystokinin, histamine-stimulated gastric secretion, 1176  
 Cholinergic agents  
   sodium transport across turtle bladders, 514  
   water and salt intake induced by hypothalamic implants of, 1418  
 Circulation  
   hepatic, adrenergic responses, 1380  
   mesenteric, 1556  
   myocardial nutritional, effect of coronary occlusion, 1069  
   peripheral, constrictor responses of dog paw vasculature, 414  
   stress relaxation of, and cardiac output, 467  
 Citrate, effects of fluoride and vitamin  $\text{D}_2$  on, in bone and serum, 179  
 $\text{Cl}^-$  flux across isolated gastric mucosa, 167  
 Clotting  
   bishydroxycoumarin and diet, 429  
   regional and systemic myocardial injury, 308  
 Coagulation: *see* Clotting  
 Collagen, effects of vitamin  $\text{D}_3$  on synthesis in rachitic cortical bone, 1092  
 Colon, effects of eating and intraluminal filling on ileocolonic junctional zone pressures, 1491  
 Compound 48/80, release of histamine from mast cells, 453  
 Constrictor responses, dog paw vasculature, 414  
 Coronary occlusion, myocardial nutritional circulation, 1069  
 Corticosteroids, protective effect in hemorrhagic shock, 314  
 Corticosterone, influence of cycling, pregnancy, labor, and suckling on plasma levels, 655  
 Corticotropin, fibrinogen response, 773  
 Countercurrent multiplier system of kidney, relationship to lymph, 1548  
 Cow, ovarian function after hypophyseal stalk transection, 1213  
 Creatine phosphate, concentrations in myocardium during stress, 1103  
 Cuneate nucleus, effects of gallamine and physostigmine on transmission through, 542  
 Cycling, corticosterone-ACTH levels, 655  
 Cytokinetics, hematopoietic, in X-ray or gamma-neutron irradiated rats, 582  
 Denervation  
   amino acid transport by skeletal muscle, 1116  
   DNA synthesis in diaphragm as early response to, 647  
 Deoxycorticosterone acetate  
   absence of renin suppression by, 1476  
   plasma renin activity, 884  
   renal escape and sodium reabsorption by proximal tubule, 869  
 Deoxycorticosterone, norepinephrine content of tissues in hypertension, 1472  
 Deoxyribonucleic acid, synthesis in diaphragm as early response to denervation, 647  
 Developed tension, effects of buffers on in atria, 853  
 Diabetes, effect of acid-base status on renal and hepatic gluconeogenesis, 1207  
 Diaphragm  
   DNA synthesis as early response to denervation, 647  
   effect of insulin in vivo, 98  
 Diet  
   blood coagulation, 429  
   body composition, 373  
   plasma amino acids, 1020

- Diving, submersion bradycardia in newborn elephant seal *Mirounga angustirostris*, 220
- Dogfish, H<sup>+</sup> buffering and excretion in hypercapnia, 440
- Dose-response relationships of choleretic effect of histamine, 335
- E**arthworm, membrane potential of muscle cells, 1258
- Eating, effects on ileocolonic junctional zone pressures, 1491
- Edema, effect on pulmonary capillary pressure, 1370
- Electric shock, local vascular and impedance changes, 712
- Electrolytes  
excretion by salt gland of Galápagos marine iguana, 995  
gastric secretion in nonsteady-state secretion in gastric fistula rats, 1481  
renal tubular transfer in adrenalectomized rats, 589  
weak, transepithelial pump for, 983
- Electromyogram, blood flow and composition changes, 1075
- Electrophysiology  
cardiac, 238  
effects of methoxyflurane on gastric mucosa, 572  
effects of transection on intestinal slow-wave frequency gradient, 734  
intestinal slow-wave frequency gradient, 301
- Emotion, cardiovascular aspects, 1226
- Endotoxin  
bacterial, bradycardia, 249  
hemodynamic response in *Escherichia coli*-resistant animals, 271  
lowering of plasma iron concentration, 1287
- Energy  
cardiac and skeletal muscle metabolic stores in hemorrhagic shock, 483  
effect of availability of, on protein synthesis in isolated atria, 76
- Enzymes  
flavoprotein, perinatal development, 979  
phagocytosis-associated, in polymorphonuclear leukocyte, 223
- Epicardium, strains during left ventricular contraction cycle, 1188
- Epinephrine  
influence of ambient temperature on secretion, 1164  
in vitro effect on lipase activity of heart, 794  
responses of hypoxic aortic muscle, 1423  
skeletal muscle, skin, and subcutaneous blood flow, 156  
vascular volume changes in forelimbs with controlled flow, 368
- Equilibrium studies, Evans blue-albumin system, 675
- Erythrocytes  
glycolysis and NADH content, 527  
macrocytic, life-span and autohemolysis, 974
- Erythropoiesis  
antagonism of angiotensin by hydralazine, 563
- macrocytes, 473  
response to blood loss in hyperbaric air, 800
- Escherichia coli*, hemodynamic response to endotoxin in animals resistant to, 271
- 17 $\beta$ -Estradiol  
displacement from fallopian tube, 1241  
fallopian tube contractility, 1236
- Estrogen antagonist  
contractility of fallopian tube, 1236  
displacement of 17 $\beta$ -estradiol from fallopian tube, 1241
- Ethoxzolamide, isolated gallbladders, 175
- Evans blue-albumin system, equilibrium and kinetic properties, 675
- Exchange diffusion, Cl<sup>-</sup> flux across gastric mucosa, 167
- Excitement, nervous control of heart rate, 1437
- Exercise  
age and body weight loss, 1081  
amino acid transport during skeletal muscle growth induced by, 1111  
body weight, 666  
cardiac output, 63  
food intake, 666  
long-term, effect on skeletal muscle lipid composition, 82  
rats and man, 666  
skeletal muscle mitochondria, 1502  
weight, food intake, and body composition, 359
- F**actor XIII in human platelets, 508
- Fallopian tube  
action of an estrogen antagonist on contractility, 1236  
displacement of 17 $\beta$ -estradiol from, 1241
- Fasting, effect of acid-base status on renal and hepatic gluconeogenesis, 1207
- Fat, histamine-stimulated gastric secretion, 1176
- Fat cells, direct effect of triiodothyronine on oxygen consumption, 905
- Fatty acids: *see* Acids, fatty
- Feedback, negative, pituitary-adrenal function, 148
- Fertilization, primate sperm survival in foreign uterine environment, 682
- Fibrinogen  
plasma regulation, 764  
response to corticotropin preparations, 773  
reversible sequestration associated with acidosis in situ, 707
- Fibrinolysis, myocardial injury, 308
- Fighting behavior, cardiovascular changes during, 1226
- Flavin adenine dinucleotide, perinatal development of enzymes synthesizing, 979
- Flavin mononucleotide, perinatal development of enzymes synthesizing, 979
- Flounder, protein transport by kidney tubules in long-term incubation, 1034
- Fluid transport, effects of K and ouabain on in proximal tubule, 1199
- Fluoride, effects on citrate in bone and serum, 179
- Folic acid deficiency, iodinated casein, 11
- Food deprivation, age, activity restriction, and weight loss, 1081
- Food intake  
exercise and protein deficiency, 359  
plasma amino acids, 1020
- Foxhound, anesthesia and renal responses to intravascular volume expansion, 1367
- Fructose metabolism in sea-level and high-altitude natives, 1542
- L-Fucose-1-<sup>14</sup>C metabolism, 1337
- Fucose glycoproteins metabolism, 1337
- G**allamine, effect on transmission through cuneate nucleus, 542
- Gallbladder, carbonic anhydrase inhibitors, 175
- Gamma-neutron irradiation hematopoietic cytokinetics, 582
- Gastric acid, effect of secretin on secretion, 87
- Gastric fistula  
gastric electrolyte secretion in nonsteady-state secretion, 1481  
potentiation of acid secretion, 968
- Gastric mucosa  
Cl<sup>-</sup> flux across isolated, 167  
concentrated solutions of nonelectrolytes, 33  
electrophysiological effects of methoxyflurane, 572  
metabolic pathway of histamine in relation to acid secretion, 988  
pentagastrin and acetylcholine relation to histamine in H<sup>+</sup> secretion, 961  
reversal by potassium of barium effect on, 536  
solutions of reduced osmotic concentration, 25
- Gastric secretion  
histamine-stimulated, effects of fat, secretin, and cholecystokinin, 1176  
of H, Na, K, and Cl, 487
- Gastrin, antrectomy and gastric histidine decarboxylase activity, 1051
- Glomerular filtration rate during angiotensin infusion, 554
- Glucagon  
phosphorylase activity of isolated perfused liver, 521  
role of thyroid gland during hypocalcemia induced by, 939
- Gluconeogenesis  
effect of alcohol on, with isolated liver perfusion technique, 756  
hepatic and renal, effect of acid-base status on, in diabetes and fasting, 1207  
pyruvate metabolism in mammalian liver, 1525
- Glucose  
blood, in situ utilization by skeletal muscle in tetanus, 1534  
effect of absorption on sodium insorption in intestine, 749  
effect of pressure development on metabolism in heart, 1569  
effects of ventricular pressure development and palmitate on transport, 804  
hepatic and portal metabolism, 953  
intrinsic regulation of output by liver, 698

- kinetics of blood-cerebrospinal fluid transfer, 1120
- Glucose-6-phosphatase dehydrogenase, thyroxine, 1054
- Glucose-6-phosphatase, thyroxine, 1054
- Glutamine, species differences in renal synthesis in vivo, 117
- Glutamine synthetase, renal ammonia metabolism, 1107
- Glycoproteins, fucose-labeled, metabolism, 1337
- Glycolysis, NADH content in erythrocytes, 527
- Glycerol uptake, plasma glycerol concentration in normal dog, 191
- Glycogen, in situ utilization by skeletal muscle in tetanus, 1534
- Gunn strain of rat, urinary concentrating defect, 1386
- H**ear: *see also* entries under Cardiac
- comparison of effects of vagus nerve stimulation and acetylcholine infusions, 890
- effect of high calcium concentration on action potential, 687
- effect of hyperbaric oxygenation on left ventricular function, 161
- effect of ouabain on calcium kinetics, 123
- effect of pressure development on glucose and palmitate metabolism, 1569
- effects of increased serum osmolality on left ventricular performance, 898
- effects of ventricular pressure development and palmitate on glucose transport, 804

# Contents of Volume 216

No. 1, JANUARY 1969

## CIRCULATION

- Effect of intravenous epinephrine on skeletal muscle, skin, and subcutaneous blood flow. *Alpert, J. S., and J. D. Coffman* . . . . . 156
- Effect of ouabain on cardiac  $^{45}\text{Ca}$  kinetics measured by indicator dilution. *Bailey, L. E., and S. C. Harvey* . . . . . 123
- Effects of paired stimulation on cardiac output in dogs at rest and during exercise. *Bassett, A. L., and F. F. Kao* . . . . . 63
- Effects of energy availability on protein synthesis in isolated rat atria. *Cohen, J., R. E. Feldman, and A. A. Whitbeck* . . . . . 76
- Effect of serotonin on internal and external carotid artery blood flow in the baboon. *Grimson, B. S., S. C. Robinson, E. T. Danford, G. T. Tindall, and J. C. Greenfield, Jr.* . . . . . 50
- Mechanism of the Woodworth staircase phenomenon in heart and skeletal muscle. *Hajdu, S.* . . . . . 206
- Inactivation of angiotensin in shock. *Itskovitz, H. D. L., Miller, W. Ural, J. Zapp, and R. White* . . . . . 5
- Effect of hyperbaric oxygenation on left ventricular function. *Kioschos, J. M., V. S. Behar, H. A. Saltzman, H. K. Thompson, N. E. Myers, W. W. Smith, and H. D. McIntosh* . . . . . 161
- Transient and persistent components of sympathetic cholinergic vasodilatation. *Mauskopf, J. M., S. D. Gray, and E. M. Renkin* . . . . . 92
- Transfer of free fatty acids across the primate placenta. *Portman, O. W., R. E. Behrman, and P. Soltys* . . . . . 143
- Release of adenosine in reactive hyperemia of the dog heart. *Rubio, R., R. M. Berne, and M. Katori* . . . . . 56
- Temperature effects on isolated resistance vessels of skin and mesentery. *Sams, W. M., Jr., and R. K. Winkelmann* . . . . . 112
- Water content of arteriolar wall in renovascular hypertension. *Tobian, L., R. Olson, and G. Chesley* . . . . . 22
- Effect of sudden changes in aortic pressure on left ventricular  $dp/dt$ . *Wildenthal, K., D. S. Mierzwiaik, and J. H. Mitchell* . . . . . 185

## RESPIRATION

- Effect of hyperbaric oxygenation on left ventricular function. *Kioschos, J. M., V. S. Behar, H. A. Saltzman, H. K. Thompson, N. E. Myers, W. W. Smith, and H. D. McIntosh* . . . . . 161

## RENAL AND ELECTROLYTE PHYSIOLOGY

- Antidiuretic effect of triiodothyronine in the hypophysectomized rat. *Bauman, J. W., Jr., R. Manshardt, and G. Levisay* . . . . . 139
- Renal excretion of lactic acid in the dog. *Dies, F., G. Ramos, E. Avelar, and M. Lennhoff* . . . . . 106
- Inactivation of angiotensin in shock. *Itskovitz, H. D., L. Miller, W. Ural, J. Zapp, and R. White* . . . . . 5
- Species differences in renal glutamine synthesis in vivo. *Lyon, M. L., and R. F. Pitts* . . . . . 117
- Water content of arteriolar wall in renovascular hypertension. *Tobian, L., R. Olson, and G. Chesley* . . . . . 22

## GASTROINTESTINAL PHYSIOLOGY

- Action of solutions of reduced osmotic concentration on the dog gastric mucosa. *Altamirano, M.* . . . . . 25

- Action of concentrated solutions of nonelectrolytes on the dog gastric mucosa. *Altamirano, M.* . . . . . 33
- Intestinal absorption amino acids in the dog. *Annegers, J. H.* . . . . . 1
- Three components of  $\text{Cl}^-$  flux across isolated bullfrog gastric mucosa. *Forte, J. G.* . . . . . 167
- Effect of secretin on gastric acid and pepsin secretion in response to various stimuli. *Nakajima, S., M. Nakamura, and D. F. Magee* . . . . . 87
- Effect of carbonic anhydrase inhibitors on isolated rabbit gallbladder. *Wheeler, H. O., E. D. Ross, and K. K. King* . . . . . 175

## ENDOCRINOLOGY AND METABOLISM

- Antidiuretic effect of triiodothyronine in the hypophysectomized rat. *Bauman, J. W., Jr., R. Manshardt, and G. Levisay* . . . . . 139
- Effect of iodinated casein on production of vitamin  $\text{B}_{12}$  and folic acid deficiency in rats. *Chang, Y.-O.* . . . . . 11
- Lymphatic absorption of palmitate- $^{14}\text{C}$  and oleate- $^{14}\text{C}$  in the bovine. *Cook, D. A., A. D. McGilliard, J. W. Young, N. L. Jacobson, and R. S. Allen* . . . . . 41
- Renal excretion of lactic acid in the dog. *Dies, F., G. Ramos, E. Avelar, and M. Lennhoff* . . . . . 106
- Effects of fluoride and vitamin  $\text{D}_2$  on citrate in bone and serum. *Hac, L. R., and S. Freeman* . . . . . 179
- Inactivation of angiotensin in shock. *Itskovitz, H. D., L. Miller, W. Ural, J. Zapp, and R. White* . . . . . 5
- Transfer of free fatty acids across the primate placenta. *Portman, O. W., R. E. Behrman, and P. Soltys* . . . . . 143
- Reticuloendothelial blockade and recovery as a function of opsonic activity. *Saba, T. M., and N. R. Di Luzio* . . . . . 197
- Effect of insulin in vivo on diaphragm and adipose tissue of obese mice. *Stauffacher, W., and A. E. Renold* . . . . . 98
- Water content of arteriolar wall in renovascular hypertension. *Tobian, L., R. Olson, and G. Chesley* . . . . . 22
- Relationship of glycerol uptake to plasma glycerol concentration in the normal dog. *Winkler, B., R. Steel, and N. Altszuler* . . . . . 191
- Negative feedback and pituitary-adrenal function in female rats. *Zimmermann, E., and V. Critchlow* . . . . . 148

## ENVIRONMENTAL PHYSIOLOGY AND EXERCISE

- Effect of intravenous epinephrine on skeletal muscle, skin, and subcutaneous blood flow. *Alpert, J. S., and J. D. Coffman* . . . . . 156
- Effects of paired stimulation on cardiac output in dogs at rest and during exercise. *Bassett, A. L., and F. F. Kao* . . . . . 63
- Relation between length, tension, and heat: frog sartorius muscle, brief tetani. *Fales, J. T., and K. L. Zierler* . . . . . 70
- Effect of hyperbaric oxygenation on left ventricular function. *Kioschos, J. M., V. S. Behar, H. A. Saltzman, H. K. Thompson, N. E. Myers, W. W. Smith, and H. D. McIntosh* . . . . . 161
- Effect of long-term exercise on skeletal muscle lipid composition. *Morgan, T. E., F. A. Short, and L. A. Cobb* . . . . . 82
- Effect of insulin in vivo on diaphragm and adipose tissue of obese mice. *Stauffacher, W., and A. E. Renold* . . . . . 98
- Negative feedback and pituitary-adrenal function in female rats. *Zimmermann, E., and V. Critchlow* . . . . . 148

## COMPARATIVE AND GENERAL PHYSIOLOGY

- Effect of iodinated casein on production of vitamin B<sub>12</sub> and folic acid deficiency in rats. *Chang, Y.-O.*..... 11
- Three components of Cl<sup>-</sup> flux across isolated bullfrog gastric mucosa. *Forte, J. G.*..... 167
- Whole-body autoradiography of histamine-<sup>14</sup>C in rats. *Gershwin, M. E., N. T. Smith, and N. Hood.*..... 46
- Effects of fluoride and vitamin D<sub>2</sub> on citrate in bone and serum. *Hac, L. R., and S. Freeman.*..... 179
- Mechanism of the Woodworth staircase phenomenon in heart and skeletal muscle. *Hajdu, S.*..... 206
- Submersion bradycardia in the newborn elephant seal *Mirounga angustirostris*. *Hammond, D. D., R. Elsner, G. Simison, and R. Hubbard.*..... 220
- Calcium accumulation and mechanical response of ileal muscle from rat and guinea pig. *Hurwitz, L., P. D. Joiner, S. Von Hagen, and G. R. Davenport.*..... 215
- Transfer of free fatty acids across the primate placenta. *Portman, O. W., R. E. Behrman, and P. Soltys.*..... 143
- Temperature effects on isolated resistance vessels of skin and mesentery. *Sams, W. M., Jr., and R. K. Winkelmann.*..... 112
- Analysis of excitation process in squid giant axons under bi-ionic conditions. *Tasaki, I., L. Lerman, and A. Watanabe.*..... 130

## NEUROPHYSIOLOGY

- Two types of motor pause in masticatory muscles. *Beaudreau, W. F., W. F. Daugherty, and W. S. Masland.*..... 16
- Transient and persistent components of sympathetic cholinergic vasodilatation. *Mauskopf, J. M., S. D. Gray, and E. M. Renkin.*..... 92
- Analysis of excitation process in squid giant axons under bi-ionic conditions. *Tasaki, I., L. Lerman, and A. Watanabe.*..... 130

## HEMATOLOGY

- Reticuloendothelial blockade and recovery as a function of opsonic activity. *Saba, T. M., and N. R. Di Luzio.*..... 197

## MUSCLE PHYSIOLOGY

- Effect of intravenous epinephrine on skeletal muscle, skin, and subcutaneous blood flow. *Alpert, J. S., and J. D. Coffman.*..... 156
- Effect of ouabain on cardiac <sup>45</sup>Ca kinetics measured by indicator dilution. *Bailey, L. E., and S. C. Harvey.*..... 123
- Two types of motor pause in masticatory muscles. *Beaudreau, D. E., W. F. Daugherty, and W. S. Masland.*..... 16
- Effects of energy availability on protein synthesis in isolated rat atria. *Cohen, J., R. E. Feldman, and A. A. Whitbeck.*..... 76
- Relation between length, tension, and heat: frog sartorius muscle, brief tetani. *Fales, J. T., and K. L. Zierler.*..... 70
- Mechanism of the Woodworth staircase phenomenon in heart and skeletal muscle. *Hajdu, S.*..... 206
- Calcium accumulation and mechanical response of ileal muscle from rat and guinea pig. *Hurwitz, L., P. D. Joiner, S. Von Hagen, and G. R. Davenport.*..... 215
- Effect of long-term exercise on skeletal muscle lipid composition. *Morgan, T. E., F. A. Short, and L. A. Cobb.*..... 82
- Release of adenosine in reactive hyperemia of the dog heart. *Rubio, R., R. M. Berne, and M. Katori.*..... 56

## OTHER ASPECTS OF PHYSIOLOGY

- Whole-body autoradiography of histamine-<sup>14</sup>C in rats. *Gershwin, M. E., N. T. Smith, and N. Hood.*..... 46
- Submersion bradycardia in the newborn elephant seal *Mirounga angustirostris*. *Hammond, D. D., R. Elsner, G. Simison, and R. Hubbard.*..... 220

- Reticuloendothelial blockade and recovery as a function of opsonic activity. *Saba, T. M., and N. R. Di Luzio.*..... 197

## No. 2, FEBRUARY 1969

## CIRCULATION

- Coronary vasodilator responses to hypoxia and induced tachycardia before and after lidoflazine. *Afonso, S.*..... 297
- Epinephrine-induced vascular volume changes in dog forelimbs with controlled flow. *Baker, C. H.*..... 368
- Distribution of red cells in the rat after hemorrhage, transfusion, and shock. *Baker, R., D. Mendel, and R. W. S. Tomlinson.*..... 290
- Nature of the bradycardia evoked by bacterial endotoxin. *Blattberg, B., and M. N. Levy.*..... 249
- Cardiac output redistribution during common carotid occlusion. *Bond, R. F., and H. D. Green.*..... 393
- Response of myocardial connective tissue to development of experimental hypertrophy. *Buccino, R. A., E. Harris, J. F. Spann, Jr., and E. H. Sonnenblick.*..... 425
- Intrahepatic distribution of hepatic arterial and portal venous flows in the dog. *Cohn, J. N., and A. L. Pinkerson.*..... 285
- Mathematical model of response to carotid sinus nerve stimulation. *Gleser, M. A., and G. Grupp.*..... 263
- Rate of development of constrictor responses of the dog paw vasculature. *Hammond, M. C., D. L. Davis, and P. Dow.*..... 414
- Changes in regional blood content during hemorrhagic shock in dogs. *Hirshfeld, J. W., Jr., and C. Fell.*..... 380
- Influence of sympathetic innervation on carotid sinus baroreceptor activity. *Koizumi, K., and A. Sato.*..... 321
- Mechanism of the protective effect of corticosteroids in hemorrhagic shock. *Lefer, A. M., and J. Martin.*..... 314
- Effect of bishydroxycoumarin and diet on blood coagulation in ground squirrels. *Morrison, J. T., H. W. Colvin, Jr., D. D. Skafte, and R. E. Marsh.*..... 429
- Regional and systemic clotting and fibrinolytic activity after myocardial injury. *Moschos, C. B., P. H. Lehan, G. T. Koroxenidis, A. B. Weisse, H. A. Oldewurtel, and T. J. Regan.*..... 308
- Electrical activity of the canine mitral valve in situ. *Priola, D. V., R. L. Fulton, L. M. Napolitano, and T. Cooper.*..... 238
- Influence of manganese and ouabain on the rate of action of calcium on atrial contractions. *Sabatini-Smith, S., and W. C. Holland.*..... 244
- Effects of vasoactive agents on intestinal blood flow and motility in the dog. *Shehadeh, Z., W. E. Price, and E. D. Jacobson.*..... 386
- Hemodynamic response to endotoxin in *Escherichia coli*-resistant animals. *Tsagaris, T. J., J. Hainer, B. Waisbren, and R. L. Lange.*..... 271
- The isovolumetric spleen: index of reflex changes in splanchnic vascular capacity. *Webb-Peploe, M. M.*..... 407

## RENAL AND ELECTROLYTE PHYSIOLOGY

- Role of vitamin D in plasma calcium regulation. *Hurwitz, S., R. E. Stacey, and F. Bronner.*..... 254

## GASTROINTESTINAL PHYSIOLOGY

- Intrahepatic distribution of hepatic arterial and portal venous flows in the dog. *Cohn, J. N., and A. L. Pinkerson.*..... 285
- Nature of the intestinal slow-wave frequency gradient. *Diamant, N. E., and A. Bortoff.*..... 301
- Effects of pressure on water and solute transport by dog intestinal mucosa in vitro. *Hakim, A. A., and N. Lifson.*..... 276
- Role of vitamin D in plasma calcium regulation. *Hurwitz, S., R. E. Stacey, and F. Bronner.*..... 254
- Dose-response relationships of the choleric effect of histamine. *Jones, R. S., and M. I. Grossman.*..... 335

- Effects of acetylcholine on intestinal blood flow and motility. Price, W. E., Z. Shehadeh, G. H. Thompson, L. D. Underwood, and E. D. Jacobson. . . . . 343
- Effects of vasoactive agents on intestinal blood flow and motility in the dog. Shehadeh, Z., W. E. Price, and E. D. Jacobson. . . . . 386

## ENDOCRINOLOGY AND METABOLISM

- Weight, food intake, and body composition: effects of exercise and of protein deficiency. Crews, E. L. III, K. W. Fuge, L. B. Oscai, J. O. Holloszy, and R. E. Shank. . . . . 359
- Role of vitamin D in plasma calcium regulation. Hurwitz, S., R. E. Stacey, and F. Bronner. . . . . 254
- Mechanism of the protective effect of corticosteroids in hemorrhagic shock. Lefer, A. M., and J. Martin. . . . . 314
- Structural luteolysis in hypophysectomized rats. Malven, P. V., G. J. Cousar, and E. H. Row. . . . . 421
- Phagocytosis-associated metabolism and enzymes in the rat polymorphonuclear leukocyte. Reed, P. W., and J. Tepperman. . . . . 223
- A paradoxical effect of propylthiouracil on rat polymorphonuclear leukocyte metabolism. Reed, P. W., and J. Tepperman. . . . . 231
- Dietary obesity in rats: influence of diet, weight, age, and sex on body composition. Schemmel, R., O. Mikkelsen, and Z. Tolgay. . . . . 373
- Effect of thyrotropin on thyroidal iodine metabolism during hypoxia. Surks, M. I. . . . . 436

## ENVIRONMENTAL PHYSIOLOGY AND EXERCISE

- Weight, food intake, and body composition: effects of exercise and of protein deficiency. Crews, E. L. III, K. W. Fuge, L. B. Oscai, J. O. Holloszy, and R. E. Shank. . . . . 359
- Pyrogen-induced changes in the thermosensitivity of septal and preoptic neurons. Eisenman, J. S. . . . . 330

## COMPARATIVE AND GENERAL PHYSIOLOGY

- Cardiac output redistribution during common carotid occlusion. Bond, R. F., and H. D. Green. . . . . 393
- Response of myocardial connective tissue to development of experimental hypertrophy. Buccino, R. A., E. Harris, J. F. Spann, Jr., and E. H. Sonnenblick. . . . . 425
- H<sup>+</sup> buffering and excretion in response to acute hypercapnia in the dogfish *Squalus acanthias*. Cross, C. E., B. S. Packer, J. M. Linta, H. V. Murdaugh, Jr., and E. D. Robin. . . . . 440
- Nature of the intestinal slow-wave frequency gradient. Diamant, N. E., and A. Bortoff. . . . . 301
- Effect of protein synthesis inhibitors on plasma ceruloplasmin in the rat. Evans, G. W., D. R. Myron, and R. E. Wiederanders. . . . . 340
- Iodide transport from the spinal subarachnoid fluid in the cat. Hammerstad, J. P., A. V. Lorenzo, and R. W. P. Cutler. . . . . 353
- Effect of alcohols on potentials of lobster axons. Houck, D. J. . . . . 364
- Effect of bishydroxycoumarin and diet on blood coagulation in ground squirrels. Morrison, J. T., H. W. Colvin, Jr., D. D. Skafte, and R. E. Marsh. . . . . 429
- Regional and systemic clotting and fibrinolytic activity after myocardial injury. Moschos, C. B., P. H. Lehan, G. T. Koroxenidis, A. B. Weisse, H. A. Oldewurtel, and T. J. Regan. . . . . 308
- Influence of manganese and ouabain on the rate of action of calcium on atrial contractions. Sabatini-Smith, S., and W. C. Holland. . . . . 244
- Hemodynamic response to endotoxin in *Escherichia coli*-resistant animals. Tsagaris, T. J., J. Hainer, B. Waisbren, and R. L. Lange. . . . . 271

## NEUROPHYSIOLOGY

- Pyrogen-induced changes in the thermosensitivity of septal and preoptic neurons. Eisenman, J. S. . . . . 330
- Some effects of polarizing current on discharges from muscle spindle receptors. Emonet-Dénand, F., and J. Houk. . . . . 404
- Iodide transport from the spinal subarachnoid fluid in the cat. Hammerstad, J. P., A. V. Lorenzo, and R. W. P. Cutler. . . . . 353
- Effect of alcohols on potentials of lobster axons. Houck, D. J. . . . . 364
- Influence of sympathetic innervation on carotid sinus baroreceptor activity. Koizumi, K., and A. Sato. . . . . 321
- Effect of ischemia on metabolism of the brain of the newborn mouse. Thurston, J. H., and D. B. McDougal, Jr. . . . . 348

## HEMATOLOGY

- Effect of bishydroxycoumarin and diet on blood coagulation in ground squirrels. Morrison, J. T., H. W. Colvin, Jr., D. D. Skafte, and R. E. Marsh. . . . . 429
- Regional and systemic clotting and fibrinolytic activity after myocardial injury. Moschos, C. B., P. H. Lehan, G. T. Koroxenidis, A. B. Weisse, H. A. Oldewurtel, and T. J. Regan. . . . . 308
- Phagocytosis-associated metabolism and enzymes in the rat polymorphonuclear leukocyte. Reed, P. W., and J. Tepperman. . . . . 223
- A paradoxical effect of propylthiouracil on rat polymorphonuclear leukocyte metabolism. Reed, P. W., and J. Tepperman. . . . . 231

## MUSCLE PHYSIOLOGY

- Cardiac output redistribution during common carotid occlusion. Bond, R. F., and H. D. Green. . . . . 393
- Response of myocardial connective tissue to development of experimental hypertrophy. Buccino, R. A., E. Harris, J. F. Spann, Jr., and E. H. Sonnenblick. . . . . 425
- Nature of the intestinal slow-wave frequency gradient. Diamant, N. E., and A. Bortoff. . . . . 301
- Electrical activity of the canine mitral valve in situ. Priola, D. V., R. L. Fulton, L. M. Napolitano, and T. Cooper. . . . . 238
- Influence of manganese and ouabain on the rate of action of calcium on atrial contractions. Sabatini-Smith, S., and W. C. Holland. . . . . 244

## OTHER ASPECTS OF PHYSIOLOGY

- Nature of the bradycardia evoked by bacterial endotoxin. Blattberg, B., and M. N. Levy. . . . . 249
- Effect of ischemia on metabolism of the brain of the newborn mouse. Thurston, J. H., and D. B. McDougal, Jr. . . . . 348

## No. 3. MARCH 1969

## CIRCULATION

- Equilibrium and kinetic properties of the Evans blue-albumin system. Freedman, F. B., and J. A. Johnson. . . . . 675
- Single-passage extraction of <sup>86</sup>Rb from the circulation of skeletal muscle. Friedman, J. J. . . . . 460
- Oxygen availability: a determinant of myocardial potassium balance. Gerlings, E. D., D. T. Miller, and J. P. Gilmore. . . . . 559
- Prostaglandins and consecutive vascular segments of the canine hind limb. Greenberg, R. A., and H. V. Sparks. . . . . 567
- Right atrial admixture in coronary venous blood. Koberstein, R. C., D. E. Pitman, and F. J. Klocke. . . . . 531
- Effect of mean pressure on carotid sinus baroreceptor response to pulsatile pressure. Koushanpour, E., and J. P. McGee. . . . . 599

Cardiac and skeletal muscle metabolic energy stores in hemorrhagic shock. <i>Lefer, A. M., J. C. Daw, and R. M. Berne</i> .....	483	Cardiac and skeletal muscle metabolic energy stores in hemorrhagic shock. <i>Lefer, A. M., J. C. Daw, and R. M. Berne</i> .....	483
Effects of blood viscosity on hemodynamic responses in acute normovolemic anemia. <i>Murray, J. F., E. Escobar, and E. Rapoport</i> .....	638	Antagonism of angiotensin by hydralazine on renal blood flow and erythropoietin production. <i>Malgor, L. A., and J. W. Fisher</i> .....	653
Effect of blood volume, mean circulatory pressure, and stress relaxation on cardiac output. <i>Prather, J. W., A. E. Taylor, and A. C. Guyton</i> .....	467	Influence of glycolysis on NADH content in human erythrocytes. <i>Omachi, A., C. B. Scott, and T. E. Parry</i> .....	527
Individual chamber sensitivity to norepinephrine after unilateral cardiac denervation. <i>Priola, D. V.</i> .....	604	Rats and exercise, men and work. <i>Parks, J. R.</i> .....	666
Production and measurement of traumatic swelling. <i>Rosenthal, S. M.</i> .....	630	Influence of cycling, pregnancy, labor, and suckling on corticosterone-ACTH levels. <i>Voogt, J. L., M. Sar, and J. Meites</i> .....	655
Effects of serotonin, adrenaline, noradrenaline, and histamine on traumatic swelling. <i>Rosenthal, S. M.</i> .....	634	Effect of glucagon on phosphorylase activity of the isolated perfused liver. <i>Weintraub, B., E. J. Sarcione, and J. E. Sokal</i> .....	521
Plasma renin activity in hypertensive rats after treatment with renin preinhibitor. <i>Sen, S., R. R. Smeby, and F. M. Bumpus</i> .....	499	ENVIRONMENTAL PHYSIOLOGY AND EXERCISE	
Effect of changes in central body temperature on capacity elements of limb and spleen. <i>Webb-Peploe, M. M.</i> .....	643	Water intake and urine output during chronic centrifugation. <i>Bengele, H. H.</i> .....	659
Influence of efferent vagal stimulation on left ventricular function in dogs. <i>Wildenthal, K., D. S. Mierzwia, H. L. Wyatt, and J. H. Mitchell</i> .....	577	Dynamic response of thorax and abdomen of rabbits in partial and whole-body blast exposure. <i>Clemenson, C. -J., L. Frankenberg, A. Jönsson, H. Pettersson, and A. -B. Sundqvist</i> .....	615
RESPIRATION		Rats and exercise, men and work. <i>Parks, J. R.</i> .....	666
Effects of blood viscosity on hemodynamic responses in acute normovolemic anemia. <i>Murray, J. F., E. Escobar, and E. Rapoport</i> .....	638	COMPARATIVE AND GENERAL PHYSIOLOGY

Two models of gastric H, Na, K, and Cl secretion in the dog using histamine and pentagastrin. <i>Hutchison, G. A., and B. I. Hirschowitz</i> .....	487	Effect of mean pressure on carotid sinus baroreceptor response to pulsatile pressure. <i>Koushanpour, E., and J. P. McGee</i> .....	599
Electrophysiological effects of methoxyflurane (Penthrane) on frog gastric mucosa. <i>MacKrell, T. N., and M. Schwartz</i> .....	572	DNA synthesis in the rat diaphragm as an early response to denervation. <i>Zak, R., D. Grove, and M. Rabinowitz</i> .....	647
Reversal by potassium of an effect of barium on the frog gastric mucosa. <i>Pacifico, A. D., M. Schwartz, T. N. MacKrell, S. G. Spangler, S. S. Sanders, and W. S. Rehm</i> .....	536	HEMATOLOGY	
Selective effects of dietary egg white trypsin inhibitor on pancreatic enzyme secretion. <i>Rothman, S. S., and H. Wells</i> .....	504	Comparative hematopoietic cytokinetics in X-ray or gamma-neutron irradiated rats. <i>Baum, S. J., D. E. Wyant, and J. P. Vagher</i> .....	582
ENDOCRINOLOGY AND METABOLISM		Red cell volumes and erythropoiesis. II. Age: density: volume relationship of macrocytes. <i>Coopersmith, A., and M. Ingram</i> .....	473
Renal extraction of PAH, GFR, and $U_{Na}V$ in the rat during infusion of angiotensin. <i>Bonjour, J. -P., and R. L. Malvin</i> .....	554	Selective release of histamine from rat mast cells by compound 48/80 and antigen. <i>Johnson, A. R., and N. C. Moran</i> .....	453
Primate sperm survival and capacitation in a foreign uterine environment. <i>Dukelow, W. R., and H. N. Chernoff</i> .....	682	Antagonism of angiotensin by hydralazine on renal blood flow and erythropoietin production. <i>Malgor, L. A., and J. W. Fisher</i> .....	563
		Factor XIII and antiplasmin activity in human platelets. <i>McDonagh, J., T. H. Kiesselbach, and R. H. Wagner</i> .....	508

- Influence of glycolysis on NADH content in human erythrocytes. *Omachi, A., C. B. Scott, and T. E. Parry.* . . . . . 527
- Alteration of hemopoietic tissue as a factor influencing radiosensitivity of the mouse. *Smith, L. H., and H. G. Willard.* . . . . . 493

## MUSCLE PHYSIOLOGY

- Role of calcium in initiation of activity of smooth muscle. *Bozler, E.* . . . . . 671
- Individual chamber sensitivity to norepinephrine after unilateral cardiac denervation. *Priola, D. V.* . . . . . 604
- DNA synthesis in the rat diaphragm as an early response to denervation. *Zak, R., D. Grove, and M. Rabinowitz.* . . . . 647

## OTHER ASPECTS OF PHYSIOLOGY

- Dynamic response of thorax and abdomen of rabbits in partial and whole-body blast exposure. *Clemenson, C. -J., L. Frankenberg, A. Jönsson, H. Pettersson, and A. -B. Sundqvist.* . . . . . 615
- Right atrial admixture in coronary venous blood. *Koberstein, R. C., D. E. Pittman, and F. J. Klocke.* . . . . . 531
- Rats and exercise, men and work. *Parks, J. R.* . . . . . 666
- Production and measurement of traumatic swelling. *Rosenthal, S. M.* . . . . . 630
- Effects of serotonin, adrenaline, noradrenaline, and histamine on traumatic swelling. *Rosenthal, S. M.* . . . . . 634

No. 4. APRIL 1969

## CIRCULATION

- Evidence against oxygen being the primary factor governing autoregulation. *Bond, R. F., R. F. Blackard, and J. A. Taxis.* . . . . . 788
- Effect of allopurinol on hemorrhagic shock. *Crowell, J. W., C. E., Jones, and E. E. Smith.* . . . . . 744
- Local vascular and impedance changes induced by electric shock. *Greenblatt, D. J., and B. Tursky.* . . . . . 712
- Simultaneous measurements of hepatic and portal venous blood flow in the sheep and dog. *Katz, M. L., and E. N. Bergman.* . . . . . 946
- Hepatic and portal metabolism of glucose, free fatty acids, and ketone bodies in the sheep. *Katz, M. L., and E. N. Bergman.* . . . . . 953
- Effects of buffers on developed tension, membrane potentials, and ATP levels of atria. *Ko, K.-C., A. L. Gimeno, and D. A. Berman.* . . . . . 853
- Comparison of the cardiac effects of vagus nerve stimulation and of acetylcholine infusions. *Levy, M. N., and H. Zieske.* . . . . . 890
- In vitro effect of epinephrine on lipase activity of heart. *Mallou, S., and A. A. Alousi.* . . . . . 794
- Renal innervation and renin activity in salt metabolism and hypertension. *Mogil, R. A., H. D. Itskovitz, J. H. Russell, and J. J. Murphy.* . . . . . 693
- Effects of ventricular pressure development and palmitate on glucose transport. *Neely, J. R., R. H. Bowman, and H. E. Morgan.* . . . . . 804
- Fibrinogen: reversible sequestration associated with acidosis in situ. *Siegel, N. J., and S. N. Kolmen.* . . . . . 707
- Permeability of the mammalian blood-gas barrier and its components. *Wangensteen, O. D., L. E. Wittmers, Jr., and J. A. Johnson.* . . . . . 719
- Regulation of protein synthesis in the ventricular myocardium of hypertrophic hearts. *Wannemacher, R. W., Jr., and J. R. McCoy.* . . . . . 781
- Acute effects of increased serum osmolality on left ventricular performance. *Wildenthal, K., D. S. Mierzwiak, and J. H. Mitchell.* . . . . . 898

## RESPIRATION

- Fibrinogen: reversible sequestration associated with acidosis in situ. *Siegel, N. J., and S. N. Kolmen.* . . . . . 707
- Permeability of the mammalian blood-gas barrier and its components. *Wangensteen, O. D., L. E. Wittmers, Jr., and J. A. Johnson.* . . . . . 719

## RENAL AND ELECTROLYTE PHYSIOLOGY

- Effects of renal medullary concentrating ability on canine renal lymph composition. *Bell, R. D., M. J. Keyl, and F. R. Shrader.* . . . . . 704
- Electrolyte excretion by the salt gland of the Galápagos marine iguana. *Dunson, W. A.* . . . . . 995
- Renal innervation and renin activity in salt metabolism and hypertension. *Mogil, R. A., H. D. Itskovitz, J. H. Russell, and J. J. Murphy.* . . . . . 693
- Renal tubular secretion-reabsorption of thiosulfate in the dog. *Mudge, G. H., W. O. Berndt, J. Lockhart, and A. Saunders.* . . . . 843
- Adrenal steroidogenesis and serum renin in rats bred for juxtaglomerular granularity. *Rapp, J. P.* . . . . . 860
- Reduced sodium reabsorption by the proximal tubule of Doca-escaped dogs. *Wright, F. S., F. G. Knox, S. S. Howards, and R. W. Berliner.* . . . . . 869

## GASTROINTESTINAL PHYSIOLOGY

- Potential of acid secretion in dogs. *Cooke, A. R.* . . . . . 968
- Effects of transection on the intestinal slow-wave frequency gradient. *Diamant, N. E., and A. Bortoff.* . . . . . 734
- Metabolic pathway of histamine in canine gastric mucosa in relation to acid secretion. *Dombro, R., M. Huang, M. Diethrenner, and H. Ragins.* . . . . . 988
- Secretory stimulation of the rat pancreas by *p*-amino-benzamidine. *Geratz, J. D.* . . . . . 812
- Intrinsic regulation of glucose output by rat liver. *Glinemann, W. H., E. P. Hern, and A. Lynch.* . . . . . 698
- Sodium-glucose relationships during intestinal sorption in dogs. *Heaton, J. W., Jr., and C. F. Code.* . . . . . 749
- Pentagastrin and acetylcholine relation to histamine in H<sup>+</sup> secretion by gastric mucosa. *Kasbekar, D. K., H. A. Ridley, and J. G. Forte.* . . . . . 961
- Intestinal transport of amino acids as affected by sugars. *Reiser, S., and P. A. Christiansen.* . . . . . 915
- Effects of metabolic inhibitors on potassium transport in submaxillary glands. *Siegel, I. A.* . . . . . 728
- A transepithelial pump for weak electrolytes. *Stevens, C. E., A. Dobson, and J. H. Mammano.* . . . . . 983

## ENDOCRINOLOGY AND METABOLISM

- Fibrinogen response to corticotropin preparations in rabbits. *Atencio, A. C., P. -Y. Chao, A. Y. Chen, and E. B. Reeve.* . . . 773
- Experimental and control systems studies of plasma fibrinogen regulation in rabbits. *Atencio, A. C., K. Joiner, and E. B. Reeve.* . . . . . 764
- Central regulation of oxytocin release with and without vasopressin release. *Aulsebrook, L. H., and R. C. Holland.* . . . . 818
- Central inhibition of oxytocin release. *Aulsebrook, L. H., and R. C. Holland.* . . . . . 830
- Role of the thyroid gland during glucagon-induced hypocalcemia in the dog. *Avioli, L. V., S. J. Birge, S. Scott, and W. Shieber.* . . . . . 939
- A direct effect of triiodothyronine on the oxygen consumption of rat fat cells. *Challoner, D. R.* . . . . . 905
- Intrinsic regulation of glucose output by rat liver. *Glinemann, W. H., E. P. Hern, and A. Lynch.* . . . . . 698
- Effect of alcohol on gluconeogenesis using the isolated rat liver perfusion technique. *Kaden, M., N. W. Oakley, and J. B. Field.* . . . . . 756
- Simultaneous measurements of hepatic and portal venous

Physiologic role of reninlike constituent of submaxillary gland of the mouse. <i>Takeda, T., J. DeBusk, and A. Grollman.</i>	1194
Volume-tension diagrams of ejecting and isovolumic contractions in left ventricle. <i>Taylor, R. R., J. W. Covell, and J. Ross, Jr.</i>	1097
Effects of hyperbaric oxygenation on myocardial blood flow and myocardial metabolism in the dog. <i>Weglicki, W. B., C. J. Rubenstein, M. L. Entman, H. K. Thompson, Jr., and H. D. McIntosh.</i>	1219
Muscle force and electromyogram with alteration in flow and composition of blood. <i>Wright, D. L., and R. R. Sonnenschein.</i>	1075

## RESPIRATION

Hypoxia and protein clearance from the pulmonary vascular beds of adult dogs and pups. <i>Boonyaparakob, U., P. M. Taylor, D. W. Watson, V. Waterman, and E. Lopata.</i>	1013
Sequence of cardiorespiratory alterations after gradual prolonged hemorrhage in conscious dogs. <i>Kim, S. I., J. M. Desai, and W. C. Shoemaker.</i>	1044

## RENAL AND ELECTROLYTE PHYSIOLOGY

Amino acid transport in rat renal tubules. <i>Bergeron, M., and F. Morel.</i>	1139
Glutamine synthetase and renal ammonia metabolism. <i>Janicki, R. H., and L. Goldstein.</i>	1107
Effect of acid-base status on renal and hepatic gluconeogenesis in diabetes and fasting. <i>Kamm, D. E., and G. F. Cahill, Jr.</i>	1207
Renal adaptations by <i>Opsanus tau</i> , a euryhaline aglomerular teleost, to dilute media. <i>Lahlou, B., I. W. Henderson, and W. H. Sawyer.</i>	1266
Sodium exchanges in the toadfish, <i>Opsanus tau</i> , a euryhaline aglomerular teleost. <i>Lahlou, B., and W. H. Sawyer.</i>	1273
Transport of protein by flounder kidney tubules during long-term incubation. <i>Maack, T., and W. B. Kinter.</i>	1034
Effect of K and ouabain on fluid transport and cell Na in proximal tubule in vitro. <i>Maude, D. L.</i>	1199
Physiologic role of reninlike constituent of submaxillary gland of the mouse. <i>Takeda, T., J. DeBusk, and A. Grollman.</i>	1194

## GASTROINTESTINAL PHYSIOLOGY

Developmental pattern of some intestinal transport mechanisms in newborn rats and mice. <i>Batt, E. R., and D. Schachter.</i>	1064
Membrane potentials in unstimulated parotid gland of the cat. <i>Fritz, M. E., and S. Y. Botelho.</i>	1180
Effects of fat, secretin and cholecystokinin on histamine-stimulated gastric secretion. <i>Johnson, L. R., and M. I. Grossman.</i>	1176
Effect of antrectomy on gastric histidine decarboxylase activity in the rat. <i>Johnson, L. R., R. S. Jones, D. Aures, and R. Hakanson.</i>	1051
In vitro contractions of rat jejunum following whole-body X-irradiation or drugs. <i>Kagnoff, M. F., and E. Kivy-Rosenberg.</i>	1057
Amino acid balance and food intake: effect of previous diet on plasma amino acids. <i>Peng, Y., N. J. Benevenga, and A. E. Harper.</i>	1020
$\alpha$ -Aminoisobutyric acid transport and tissue concentration at various intestinal sites. <i>Schedl, H. P., D. L. Miller, H. D. Wilson, and P. Flores.</i>	1131

## ENDOCRINOLOGY AND METABOLISM

Displacement of 17 $\beta$ -estradiol from the rabbit fallopian tube. <i>Callantine, M. R., L. E. Clemens, and Y. -H. Shih.</i>	1241
---	------

Action of an estrogen antagonist on contractility of the fallopian tube. <i>Callantine, M. R., O. P. O'Brien, and L. E. Clemens.</i>	1236
Some effects of vitamin D <sub>3</sub> on collagen synthesis in rachitic chick cortical bone. <i>Canas, F., J. S. Brand, W. F. Neuman, and A. R. Terepka.</i>	1092
Amino acid transport during work-induced growth of skeletal muscle. <i>Goldberg, A. L., and H. M. Goodman.</i>	1111
Effects of disuse and denervation on amino acid transport by skeletal muscle. <i>Goldberg, A. L., and H. M. Goodman.</i>	1116
Ovarian function after hypophyseal stalk transection in the cow. <i>Henricks, D. M., S. L. Oxenreider, and L. L. Anderson.</i>	1213
Effect of acid-base status on renal and hepatic gluconeogenesis in diabetes and fasting. <i>Kamm, D. E., and G. F. Cahill, Jr.</i>	1207
Amino acid balance and food intake: effect of previous diet on plasma amino acids. <i>Peng, Y., N. J. Benevenga, and A. E. Harper.</i>	1020
Effect of albumin concentration on albumin synthesis in the perfused liver. <i>Rothschild, M. A., M. Oratz, J. Mongelli, and S. S. Schreiber.</i>	1127
$\alpha$ -Aminoisobutyric acid transport and tissue concentration at various intestinal sites. <i>Schedl, H. P., D. L. Miller, H. D. Wilson, and P. Flores.</i>	1131
Effect of thyroid hormones on metabolism. IV. Comparative aspects of enzyme responses. <i>Szepesi, B., and R. A. Freedland.</i>	1054
Physiologic role of reninlike constituent of submaxillary gland of the mouse. <i>Takeda, T., J. DeBusk, and A. Grollman.</i>	1194

## ENVIRONMENTAL PHYSIOLOGY AND EXERCISE

Cardiovascular changes during naturally elicited fighting behavior in the cat. <i>Adams, D. B., G. Baccelli, G. Mancina, and A. Zanchetti.</i>	1226
Muscle heat production and work: effect of varying isotonic load. <i>Fales, J. T.</i>	1184
Amino acid transport during work-induced growth of skeletal muscle. <i>Goldberg, A. L., and H. M. Goodman.</i>	1111
Effects of disuse and denervation on amino acid transport by skeletal muscle. <i>Goldberg, A. L., and H. M. Goodman.</i>	1116
Effects of age and activity restriction on body weight loss of rats. <i>Jakubczak, L. F.</i>	1081
Influence of ambient temperature on excretion of catecholamines and metabolites. <i>Shum, A., G. E. Johnson, and K. V. Flattery.</i>	1164
Effects of hyperbaric oxygenation on myocardial blood flow and myocardial metabolism in the dog. <i>Weglicki, W. B., C. J. Rubenstein, M. L. Entman, H. K. Thompson, Jr., and H. D. McIntosh.</i>	1219

## COMPARATIVE AND GENERAL PHYSIOLOGY

Kinetics of blood-cerebrospinal fluid glucose transfer in the normal dog. <i>Atkinson, A. J., Jr., and M. F. Weiss.</i>	1120
Displacement of 17 $\beta$ -estradiol from the rabbit fallopian tube. <i>Callantine, M. R., L. E. Clemens, and Y. -H. Shih.</i>	1241
Action of an estrogen antagonist on contractility of the fallopian tube. <i>Callantine, M. R., O. P. O'Brien, and L. E. Clemens.</i>	1236
Membrane potential of muscle cells from the earthworm <i>Pheretima hawayana</i> . <i>Chang, Y. C.</i>	1258
Platelet adhesiveness in normal and bleeder swine as measured in a Celite system. <i>Cornell, C. N., R. G. Cooper, R. A. Kahn, and S. Garb.</i>	1170
Effects of age and activity restriction on body weight loss of rats. <i>Jakubczak, L. F.</i>	1081
Glutamine synthetase and renal ammonia metabolism. <i>Janicki, R. H., and L. Goldstein.</i>	1107
Effect of calcium on electrical activity in smooth muscle cells of cat ureter. <i>Kobayashi, M.</i>	1279

- Renal adaptations by *Opsanus tau*, a euryhaline aglomerular teleost to dilute media. Lahlou, B., I. W. Henderson, and W. H. Sawyer. . . . . 1266
- Sodium exchanges in the toadfish, *Opsanus tau*, a euryhaline aglomerular teleost. Lahlou, B., and W. H. Sawyer. . . . . 1273

## NEUROPHYSIOLOGY

- Cardiovascular changes during naturally elicited fighting behavior in the cat. Adams, D. B., G. Baccelli, G. Mancía, and A. Zanchetti. . . . . 1226
- Kinetics of blood-cerebrospinal fluid glucose transfer in the normal dog. Atkinson, A. J., Jr., and M. F. Weiss. . . . . 1120
- Activation of neurosecretory cells in *Aplysia* by osphradial stimulation. Jahan-Parwar, B., M. Smith, and R. von Baumgarten. . . . . 1246
- Effects of  $\text{Pco}_2$  on spinal cord blood flow. Smith, A. L., J. W. Pender, and S. C. Alexander. . . . . 1158

## MUSCLE PHYSIOLOGY

- Displacement of 17  $\beta$ -estradiol from the rabbit fallopian tube. Callantine, M. R., L. E. Clemens, and Y.-H. Shih. . . . . 1241
- Action of an estrogen antagonist on contractility of the fallopian tube. Callantine, M. R., O. P. O'Brien, and L. E. Clemens. . . . . 1236
- Membrane potential of muscle cells from the earthworm *Pheretima hawayana*. Chang, Y. C. . . . . 1258
- Platelet adhesiveness in normal and bleeder swine as measured in a Celite system. Cornell, C. N., R. G. Cooper, R. A. Kahn, and S. Garb. . . . . 1170
- Muscle heat production and work: effect of varying isotonic load. Fales, J. T. . . . . 1184
- Changes in lactate dehydrogenase composition of hearts with right ventricular hypertrophy. Fox, A. C., and G. E. Reed. . . . . 1026
- Amino acid transport during work-induced growth of skeletal muscle. Goldberg, A. L., and H. M. Goodman. . . . . 1111
- Effects of disuse and denervation on amino acid transport by skeletal muscle. Goldberg, A. L., and H. M. Goodman. . . . . 1116
- Effect of calcium on electrical activity in smooth muscle cells of cat ureter. Kobayashi, M. . . . . 1279
- Relation between mechanics of contraction and relaxation in mammalian cardiac muscle. Parmley, W. W., and E. H. Sonnenblick. . . . . 1084
- Volume-tension diagrams of ejecting and isovolumic contractions in left ventricle. Taylor, R. R., J. W. Covell, and J. Ross, Jr. . . . . 1097
- Muscle force and electromyogram with alteration in flow and composition of blood. Wright, D. L., and R. R. Sonnenschein. . . . . 1075

## OTHER ASPECTS OF PHYSIOLOGY

- Amino acid transport in rat renal tubules. Bergeron, M., and F. Morel. . . . . 1139
- Effects of age and activity restriction on body weight loss of rats. Jakubczak, L. F. . . . . 1081

No. 6, JUNE 1969

## CIRCULATION

- Effects of hemorrhage on anesthetized dogs: role of the sympathetic system. Chien, S., and S. Usami. . . . . 1322
- Effect of pressure development on glucose and palmitate metabolism in perfused heart. Crass, M. F. III, E. S. McCaskill, and J. C. Shipp. . . . . 1569
- Effects of constant-inflow and constant-pressure perfusion on vascular responses. Davis, D. L., and M. C. Hammond. . . . . 1292

- Arteriovenous anastomotic blood flow in the mesenteric organs. Delaney, J. P. . . . . 1556
- Changes in blood flow and resistance in neonatal goats during hypoxia. Eitzman, D. V., J. R. Hessler, and S. Cassin. . . . . 1577
- Effect of lung edema on pulmonary capillary pressure. Gaar, K. A., Jr., A. E. Taylor, and A. C. Guyton. . . . . 1300
- Influence of anesthesia on renal response of the foxhound to intravascular volume expansion. Gilmore, J. P., and L. L. Michaelis. . . . . 1367
- Potassium effects on transmembrane potentials in frog ventricle. Graham, G. D., R. B. Bennett, and F. Ware. . . . . 1360
- Left coronary hemodynamics during hemorrhagic hypotension and shock. Granata, L., A. Huos, A. Pasquè, and D. E. Gregg. . . . . 1583
- Evolution of epinephrine responses of hypoxic rabbit aortic muscle. Hughes, M. J., and I. A. Corêt. . . . . 1367
- Norepinephrine content of tissues in Doca-hypertensive rats. Kazda, S., I. Pohlavá, B. Bibr, and J. Kočková. . . . . 1472
- Influence of initial resistance on magnitude of response to vasomotor stimuli. Myers, H. A., and C. R. Honig. . . . . 1429
- Summation of baroreceptor reflex effects on sympathetic nerve activities. Ninomiya, I., and H. Irisawa. . . . . 1330
- Coronary hemodynamic effects of calcium in the unanesthetized dog. Pitt, B., Y. Sugishita, and D. E. Gregg. . . . . 1456
- Adrenergic responses of the hepatic circulation. Ross, G., and M. Kurrasch. . . . . 1380
- Hemodynamic effect of listerial hemolysin in dogs. Siddique, I. H., and G. W. Cooper, Jr. . . . . 1399
- Hemodynamic effects of paired-pulse stimulation in normal and brisket-disease calves. Tsagaris, T. J., J. Lengyel, J. L. Thorne, and H. Kuida. . . . . 1404
- Species variability in hemodynamic response to paired-pulse stimulation. Tsagaris, T. J., R. B. Sutton, and H. Kuida. . . . . 1409
- Nervous control of heart rate during excitement in the adult White Leghorn cock. Tammans, J. L., and P. D. Sturkie. . . . . 1437
- Centrally mediated and direct effects of anaphylaxis on cat vascular smooth muscle. Tuttle, R. S., and M. McCleary. . . . . 1306
- Carotid baroreceptor activity during antigen infusion in the sensitized cat. Tuttle, R. S., and M. McCleary. . . . . 1314
- Myogenic tone in isolated perfused resistance vessels from rats. Uchida, E., and D. F. Bohr. . . . . 1343

## RESPIRATION

- Changes in blood flow and resistance in neonatal goats during hypoxia. Eitzman, D. V., J. R. Hessler, and S. Cassin. . . . . 1577
- Metabolic response of rat brain to acute hypoxia: influence of polycythemia and hypercapnia. Gottesfeld, Z., and A. T. Miller, Jr. . . . . 1374
- Oxygen uptake stimulation following Na-L-lactate infusion in anesthetized dogs. Karetzky, M. S., and S. M. Cain. . . . . 1486
- Respiratory function of blood of the adult and fetus Weddell seal *Leptonychotes weddelli*. Lenfant, C., R. Elsner, G. L. Kooyman, and C. M. Drabek. . . . . 1595
- Respiratory function of blood of the Adélie penguin, *Pygoscelis adeliae*. Lenfant, C., G. L. Kooyman, R. Elsner, and C. M. Drabek. . . . . 1598

## RENAL AND ELECTROLYTE PHYSIOLOGY

- Microperfusion study of magnesium reabsorption in the proximal tubule of the dog. Brunette, M., S.-F. Wen, R. L. Evanson, and J. H. Dirks. . . . . 1510
- Water and salt intake induced by hypothalamic implants of cholinergic and adrenergic agents. Chiaraviglio, E., and S. Taleisnik. . . . . 1418
- Influence of anesthesia on renal response of the foxhound to intravascular volume expansion. Gilmore, J. P., and L. L. Michaelis. . . . . 1367
- Absence of renin suppression by deoxycorticosterone acetate in rats. Goodwin, F. J., A. I. Knowlton, and J. H. Laragh. . . . . 1476

Effect of acute uremia on amino acid uptake and urea production by perfused rat liver. <i>Lacy, W. W.</i> . . . . .	1300
Gastric electrolyte secretion during nonsteady-state secretion in gastric fistula rats. <i>Lee, Y. H., and J. H. Thompson.</i> . . . .	1481
Nature of the urinary concentrating defect in the Gunn strain of rat. <i>Martinez-Maldonado, M., W. N. Suki, and S. Schenker.</i> . . . .	1386
Renal handling of magnesium in the dog. <i>Massry, S. G., J. W. Coburn, and C. R. Kleeman.</i> . . . .	1460
Coronary hemodynamic effects of calcium in the unanesthetized dog. <i>Pitt, B., Y. Sugishita, and D. E. Gregg.</i> . . . .	1456
Renal lymph and its relationship to the countercurrent multiplier system of the kidney. <i>Santos-Martinez, J., and E. E. Selkurt.</i> . . . .	1548
Intrarenal regulatory factors of salt excretion during renal venous pressure elevation. <i>Wathen, R. L., and E. E. Selkurt.</i> . . . .	1517

## GASTROINTESTINAL PHYSIOLOGY

Role of autonomic nerve impulses in secretion by the parotid gland of cat. <i>Fritz, M. E., and S. Y. Botelho.</i> . . . .	1392
Effects of eating and intraluminal filling on ileocolonic junctional zone pressures. <i>Kelley, M. L., Jr., and J. A. DeWeese.</i> . . . .	1491
Gastric electrolyte secretion during nonsteady-state secretion in gastric fistula rats. <i>Lee, Y. H., and J. H. Thompson.</i> . . . .	1481
Influence of sodium on calcium transport by the rat small intestine. <i>Martin, D. L., and H. F. DeLuca.</i> . . . .	1351
Effect of acute hypoxia on hepatic excretory function. <i>Shorey, J., S. Schenker, and B. Combes.</i> . . . .	1441

## ENDOCRINOLOGY AND METABOLISM

Metabolism of L-fucose-1- <sup>14</sup> C and of fucose-glycoproteins in the rat. <i>Bocci, V., and R. J. Winzler.</i> . . . .	1337
Micropuncture study of magnesium reabsorption in the proximal tubule of the dog. <i>Brunette, M., S.-F. Wen, R. L. Evanson, and J. H. Dirks.</i> . . . .	1510
In situ utilization of glycogen and blood glucose by skeletal muscle during tetanus. <i>Corsi, A., M. Midrio, and A. L. Granata.</i> . . . .	1534
Effect of pressure development on glucose and palmitate metabolism in perfused heart. <i>Crass, M. F. III, E. S. McCaskill, and J. C. Shipp.</i> . . . .	1569
Fat metabolism and chronic acceleration. <i>Evans, J. W., A. H. Smith, and J. M. Boda.</i> . . . .	1468
Plasma insulin and triglyceride levels after hypothalamic lesions in weanling rats. <i>Frohman, L. A., L. L. Bernardis, J. D. Schnatz, and L. Burek.</i> . . . .	1496
Effect of exercise and training on mitochondria of rat skeletal muscle. <i>Gollnick, P. D., and D. W. King.</i> . . . .	1502
Absence of renin suppression by deoxycorticosterone acetate in rats. <i>Goodwin, F. J., A. I. Knowlton, and J. H. Laragh.</i> . . . .	1476
Lowering of plasma iron concentration in the rat with leukocytic extracts. <i>Kampschmidt, R., and H. Upchurch.</i> . . . .	1287
Oxygen uptake stimulation following Na-L-lactate infusion in anesthetized dogs. <i>Karetzky, M. S., and S. M. Cain.</i> . . . .	1486
Norepinephrine content of tissues in Doca-hypertensive rats. <i>Kazda, S., I. Pohlová, B. Bíbr, and J. Kočková.</i> . . . .	1472
Effect of acute uremia on amino acid uptake and urea production by perfused rat liver. <i>Lacy, W. W.</i> . . . .	1300
Pyruvate metabolism in mammalian liver. <i>Parli, C. J., L. C. Burns, S. K. Meghal, K. Kinneberg, R. M. O'Neal, and R. E. Koeppe.</i> . . . .	1525
Fructose metabolism in sea-level and high-altitude natives. <i>Reynafarje, B., L. Oyola, R. Cheesman, E. Marticorena, and S. Jimenez.</i> . . . .	1542

## ENVIRONMENTAL PHYSIOLOGY AND EXERCISE

Fat metabolism and chronic acceleration. <i>Evans, J. W., A. H. Smith, and J. M. Boda.</i> . . . .	1468
Effect of exercise and training on mitochondria of rat skeletal muscle. <i>Gollnick, P. D., and D. W. King.</i> . . . .	1502
Metabolic response of rat brain to acute hypoxia: influence of polycythemia and hypercapnia. <i>Gottesfeld, Z., and A. T. Miller, Jr.</i> . . . .	1374
Oxygen uptake stimulation following Na-L-lactate infusion in anesthetized dogs. <i>Karetzky, M. S., and S. M. Cain.</i> . . . .	1486
Passive water movements through skin of the toad <i>Bufo marinus</i> in air and in water. <i>Machin, J.</i> . . . .	1562
Fructose metabolism in sea-level and high-altitude natives. <i>Reynafarje, B., L. Oyola, R. Cheesman, E. Marticorena, and S. Jimenez.</i> . . . .	1542

## COMPARATIVE AND GENERAL PHYSIOLOGY

Comparison of in vitro and in vivo placental permeability measurements. <i>Battaglia, F. C., G. Meschia, and E. L. Makowski.</i> . . . .	1590
Evolution of epinephrine responses of hypoxic rabbit aortic muscle. <i>Hughes, M. J., and I. A. Coret.</i> . . . .	1423
Gastric electrolyte secretion during nonsteady-state secretion in gastric fistula rats. <i>Lee, Y. H., and J. H. Thompson.</i> . . . .	1481
Respiratory function of blood of the adult and fetus Weddell seal <i>Leptonychotes weddelli</i> . <i>Lenfant, C., R. Elsner, G. L. Kooyman, and C. M. Drabek.</i> . . . .	1595
Respiratory function of blood of the Adélie penguin, <i>Pygoscelis adeliae</i> . <i>Lenfant, C., G. L. Kooyman, R. Elsner, and C. M. Drabek.</i> . . . .	1598
Passive water movements through skin of the toad <i>Bufo marinus</i> in air and in water. <i>Machin, J.</i> . . . .	1562
Renal handling of magnesium in the dog. <i>Massry, S. G., J. W. Coburn, and C. R. Kleeman.</i> . . . .	1460

## NEUROPHYSIOLOGY

Water and salt intake induced by hypothalamic implants of cholinergic and adrenergic agents. <i>Chiaraviglio, E., and S. Taleisnik.</i> . . . .	1418
Effect of botulinum toxin on speed of skeletal muscle contraction. <i>Drachman, D. B., and J. Houk.</i> . . . .	1453
Plasma insulin and triglyceride levels after hypothalamic lesions in weanling rats. <i>Frohman, L. A., L. L. Bernardis, J. D. Schnatz, and L. Burek.</i> . . . .	1496
Metabolic response of rat brain to acute hypoxia: influence of polycythemia and hypercapnia. <i>Gottesfeld, Z., and A. T. Miller, Jr.</i> . . . .	1374
Summation of baroreceptor reflex effects on sympathetic nerve activities. <i>Ninomiya, I., and H. Irisawa.</i> . . . .	1330
Nervous control of heart rate during excitement in the adult White Leghorn cock. <i>Tummons, J. L., and P. D. Sturkie.</i> . . . .	1437

## HEMATOLOGY

Lowering of plasma iron concentration in the rat with leukocytic extracts. <i>Kampschmidt, R., and H. Upchurch.</i> . . . .	1287
---	------

## MUSCLE PHYSIOLOGY

In situ utilization of glycogen and blood glucose by skeletal muscle during tetanus. <i>Corsi, A., M. Midrio, and A. L. Granata.</i> . . . .	1534
Effect of pressure development on glucose and palmitate metabolism in perfused heart. <i>Crass, M. F. III, E. S. McCaskill, and J. C. Shipp.</i> . . . .	1569
Effect of botulinum toxin on speed of skeletal muscle contraction. <i>Drachman, D. B., and J. Houk.</i> . . . .	1453
Effect of exercise and training on mitochondria of rat skeletal muscle. <i>Gollnick, P. D., and D. W. King.</i> . . . .	1502

Potassium effects on transmembrane potentials in frog ventricle. <i>Graham, G. D., R. B. Bennett, and F. Ware...</i>	1360	Myogenic tone in isolated perfused resistance vessels from rats. <i>Uchida, E., and D. F. Bohr...</i>	1343
Evolution of epinephrine responses of hypoxic rabbit aortic muscle. <i>Hughes, M. J., and I. A. Coret...</i>	1423	OTHER ASPECTS OF PHYSIOLOGY	
Effect of acute uremia on amino acid uptake and urea production by perfused rat liver. <i>Lacy, W. W...</i>	1300	Comparison of in vitro and in vivo placental permeability measurements. <i>Battaglia, F. C., G. Meschia, and E. L. Makowski...</i>	1590
Hemodynamic effect of listerial hemolysin in dogs. <i>Siddique, I. H., and G. W. Cooper, Jr...</i>	1399	Metabolism of L-fucose-1- <sup>14</sup> C and of fucose-glycoproteins in the rat. <i>Bocci, V., and R. J. Winzler...</i>	1337

## CORRIGENDUM

Volume 215, August 1968

Page 318: M. J. Hughes and I. A. Coret. "Metabolic transients: hypoxic and oxygenated rabbit aorta with and without substrate." Pages 319, 320, and 321, legends to Figs. 1, 2, 3, and 4, in all expressions of time: "min" should read "hr" and "sec" should read "min."

# Subject Index to Volume 217

- Acclimatization, cold, metabolism of serum free fatty acid and low-density lipoproteins, 19
- Acetate concentration in goats, 397
- Acetone bodies, blood, in rats given propranolol, 1690
- N-Acetyl-4-aminoantipyrine, renal excretion, 547
- Acetylcholine analogue, lipid-soluble, depolarization of cultured heart cells, 625
- Acid-base balance, sodium pyruvate infusion, 1472
- Acidosis, respiratory  
buffering by cerebrospinal fluid, 1035  
mesenteric circulation, 1549
- Acids, fatty: *see* Fatty acids
- Acids, amino: *see* Amino acids
- Acids, organic, effects of phenobarbital on biliary excretion of, 46
- Actomyosin  
aliphatic polyamines as interaction inhibitors of systems, 743  
arterial, Mg, Ca, and ATP ion dependencies for ATPase activity, 666
- Adenine, effect of compounds on platelet aggregation, 1009
- Adenohypophysis  
Ca<sup>++</sup> requirement for prolactin secretion, 1599  
transplantation, 567
- Adenosine, cerebral and renal vascular smooth, 1660
- Adenosine 3',5'-monophosphate, ACTH release, 1287
- Adenosine triphosphatase  
Na<sup>+</sup>-K<sup>+</sup>-activated, and exocrine pancreatic secretion, 1721  
sodium- and potassium-stimulated, cold resistance in hibernating mammal, 321  
system in bladder epithelium, 1496
- Adenosine triphosphate, dependence of actomyosin on ion concentration for ATPase activity, 666
- Adipose tissue  
deposition and transport of odd-numbered fatty acids, 1614  
gold thioglucose obese mice, 1088  
nutritional effects on blood flow in, 1694
- Adrenalectomy  
blood volume and myocardial function after, 1559  
functional capacity of resistance and capacitance vessels, 341
- Adrenal gland  
intracerebral dexamethasone, 392  
water snake, 419, 426
- Adrenal medulla  
blood pH and response of to hemorrhage, 1211  
sympathetic control of ventricular automaticity, 930
- $\beta$ -Adrenergic blockade, diminution of lactate rise during hypoxia, 110
- $\beta$ -Adrenergic drugs, ocular pressure and pupil size, 1593
- $\beta$ -Adrenergic receptors, circulatory response to hypoxia, 756
- Adrenocorticotropin  
adenosine 3',5'-monophosphate involvement in release of, 1287  
area of pons necessary for traumatic stress-induced release of, under pentobarbital anesthesia, 84  
central nervous system lesions that block release of, 78  
intracerebral dexamethasone, 392
- Aging  
effect on sulfate accumulation by intestine, 1101  
effects on heart, 176  
estrogenic regulation of uterine carbohydrate metabolism, 793  
milieu intérieur of bone, 117  
protein synthesis by muscle in vitro, 307
- Airway, neutralization of effects of bradykinin by antibodies, 73
- Alanine transport in jejunum, 946
- Aldosterone  
erythrocytes, 1585  
water snake, 426
- Alkalosis, respiratory, 1178
- Amine compounds, tertiary, active transport into bile, 1639
- Amino acids  
effect of insulin on transport across isolated small intestine, 53  
effect of starvation on intestinal absorption, 747  
effects of growth hormone and insulin on transport of in heart, 1795  
extracellular-intracellular pools, effects of insulin in cayman, 1846  
food intake and balance, 1441  
neutral, transport from cerebrospinal fluid, 974  
secretion and metabolism by salivary glands, 233  
transfer in parotid glands, 1025  
uptake by platelet, 845
- p-Aminohippurate  
effects of K, Na, and ouabain on uptake by kidney, 1510  
extraction during angiotensin infusion, 1708  
<sup>3</sup>H-labeled, extraction from red blood cells and plasma, 838  
renal excretion of potassium, 951  
transport in proximal tubules, 1057  
uptake and exchange by separated renal tubules, 1064
- Ammonia, depletion of reduced pyridine nucleotides in liver and blood, 1269
- Ammonium chloride, rubidium-induced changes in muscle cell bicarbonate, 1105
- Amphotericin B, interactions with vasopressin and calcium in urinary bladder, 938
- Amygdala, regulation of gastric secretion in chronic fistula rats, 505
- Androgens, regulation of ribosomes of kidney, 383
- Anemia, acute and chronic cardiovascular adjustments, 710
- Anesthetic, gas, and water structure, 414
- Angiotensin  
intrarenal blood flow and PAH extraction, 1708  
protective cofactor, 981
- Angiotensinogen, plasma, effects of corticosteroids, 1396
- Anion exchange resin, modification of cecal size in germfree rats by long-term feeding of, 911
- Antelope  
metabolism, respiratory changes, and water balance, 317  
water relations, 630
- Antibodies, neutralization of airway effects of bradykinin, 73
- Anticoagulation, granulocytic pyrogen, 720
- Antidiuretic hormone  
left atrial pressure and plasma osmolality, 1672  
plasma titers with changes in left atrial pressure, 210
- Aorta  
barostatic reflex, 1576  
effects of aortic and right atrial pressures on flow, 65  
responses of smooth muscle in intact dogs, 154  
synchronization and conduction of excitation, 376
- Arteries  
change in calcium dependence after reserpine, 1736  
influence of vascular smooth muscle on contractile mechanics and elasticity, 1644
- Arylamines, lipokinetic, effect on third-factor sodium excretion, 267
- Atrium, mitral valve closure, 1652
- Autograft, pituitary, rapid blood flow through, 567
- Barium, *Limulus* photoreceptor cell responses in presence of ions, 481
- Baroreceptor functions  
capacitance vessels in skeletal muscle, 819  
central nervous system modulation, 1681  
fetus, 1346
- Baroreceptors, pulmonary and carotid vascular responses to stimulation by capsaicin, 1837
- Barostatic reflex, aortic arch, 1576
- Behavioral thermoregulation, 1490
- Behavior  
arterial hypertension, 24, 30  
suppression of, 475
- Bicarbonate  
effect of luminal chloride concentration on secretion of in ileum, 40  
muscle cell, effect of ammonium chloride on rubidium-induced changes in, 1105
- Bile, active transport of tertiary amine compounds into, 1639
- Bile acid, effects of diet and catecholamines on metabolism, 1018
- Bile flow, secretin and histamine, 532
- Bioenergetics, marsupials, 1246
- Bladder  
ATPase system in epithelium, 1496

effect of ambient pH on sodium transport, 652  
 urinary, interactions of amphotericin B, vasopressin, and calcium, 938

#### Blood

depletion of reduced pyridine nucleotides with ammonia, 1269  
 exchange of proteins with spinal subarachnoid fluid, 348  
 extraction of Hippuran-<sup>125</sup>I and *p*-aminohippuric acid from red cells and plasma, 838  
 metabolism and distribution of carbon monoxide, 354  
 viscosity in several mammalian species, 884

#### Blood flow

aortic, effects of aortic and right atrial pressures, 65  
 coronary, as independent determinant of myocardial contractile force, 1127  
 coronary, norepinephrine, 511  
 differential regulation of, to red and white muscle in sleep and defense behavior, 541  
 distribution in small and large intestine, 835  
 forehead, measured by radioisotope disappearance rates, 1134  
 in distended colon, 35  
 influence of rate on plasma skimming in vitro, 1339  
 intrarenal, 239  
 intrarenal, during angiotensin infusion, 1708  
 nutritional effects on in adipose tissue, 1694  
 rapid, through pituitary autografts, 567  
 renal, bradykinin, 1  
 skeletal muscle, 438  
 uterine, estrogen and progesterone, 1431

#### Blood pressure

aortic and right atrial, effects on aortic flow, 65  
 behavioral induction of hypertension, 30  
 central neural control, 142  
 during behavioral experiments, 24  
 forebrain stimulation, 1149  
 left atrial, plasma antidiuretic hormone titers, 210  
 left atrial, plasma osmolality and ADH levels, 1672  
 ventral aortic, in perfused eel gills, 596

#### Blood volume

adrenal insufficiency, 1559  
 splenectomy, 891

Body stores, metabolism and distribution of carbon monoxide, 354

#### Bone

erythropoietic activity of marrow, 297  
 potassium and milieu intérieur of, 117  
 Bone marrow, cytotoxicity of bee venom for stem cells, 965

#### Bradykinin

natriuretic action, 1  
 neutralization of airway effects by antibodies, 73

Brain, metabolic interactions of glucose, lactate, and  $\beta$ -hydroxybutyrate, 784

Brain stem, termination and secondary projections of carotid sinus, 142

Breeding status, effects on heart, 176

## Calcium

activation of cardiac glycogen phosphorylase, 445  
 binding in vascular smooth muscle, 1310  
 cardiac arrest from deprivation of, 1405  
 change in dependence of arteries after reserpine, 1736  
 contents of gastrointestinal tissues, 674  
 dependence of actomyosin on ion concentration for ATPase activity, 666  
 effect of ratio to phosphate in diet on skeletal Ca, Mg, and PO<sub>4</sub> metabolism, 865  
 effect of skeletal muscle potentiators on, in cardiac sarcoplasmic reticulum, 609  
 increased concentration of in left ventricle in hypertension, 522  
 interactions with amphotericin B and vasopressin in urinary bladder, 938  
 ion requirement for prolactin secretion by adenohypophyses, 1599  
 metabolic interrelations with magnesium and phosphate, 871  
 phosphate infusion and urinary excretion of, 1570  
 sodium-induced tension in slow skeletal muscle when deprived of external, 13  
 subcellular localization in intestinal mucosa, 680  
 uptake by tissues of magnesium-deficient rabbits, 1483

#### Calcium transport

by colon in vitro, 121  
 gastrointestinal, Mg deficiency and parathyroidectomy, 1608  
 in vivo and in vitro effects of vitamin D, 126  
 phosphate-independent, carrier-mediated active, by intestine, 1144

Capacitance vessels, functional capacity in adrenal insufficiency, 341

Capsaicin, vascular responses to stimulation of pulmonary and carotid baroreceptors by, 1837

Carbamylcholine, changes in postjunctional receptors, 805

#### Carbohydrates

effect of octanoate on metabolism of in muscle, 715  
 effects of diets high in, on metabolism of lipids and, 1160  
 estrogenic regulation of uterine metabolism of during senescence, 793

Carbon dioxide, changes in conductance of sartorius fibers, 1069

#### Carbon dioxide tension

arterial, in wakefulness and sleep, 1623  
 diminution of lactate rise during hypoxia, 110

Carbon monoxide, effects of metabolism and distribution of on blood and body stores, 354

Cardiac function, adrenergic support of, during hypoxia in newborn, 728

Cardiac output, catecholamines, 1565

Cardiovascular function, intra-arterial K<sup>+</sup>, 969

Carotid sinus, termination and secondary projections in brain stem, 142

#### Catecholamines

bile acid metabolism, 1018  
 effect of training on heart and skeletal muscle concentration of, 1589

right ventricular response to outflow obstruction, 1565

ventricular automaticity, 930

Cayman, effects of insulin on extracellular-intracellular amino acid pools, 1846

Cecum, modification of size of in germ-free rats by long-term feeding of anion exchange resin, 911

#### Central nervous system

lesions that block release of adrenocorticotropin caused by traumatic stress, 78

modulation of baroreceptor reflexes, 1681

#### Cerebrospinal fluid

buffering capacity of in acute respiratory acidosis, 1035

transport of neutral amino acids from, 974

Ceruloplasmin, plasma iron in copper-deficient swine, 1320

Chloride, effect of luminal concentration of on bicarbonate secretion in ileum, 40

Chloride transport, small intestine, 694

Cholecystokinin, gastric motility, 1633

Choleresis, secretin and histamine, 532

Choroid plexus, uptake of iodide in vivo, 89  
 Chylomicrons, puromycin and release of from intestine, 336

#### Circadian rhythms

deep-body temperature, 1487

of plasma 17-hydroxycorticosteroids by serotonin, 1703

#### Circulation

$\beta$ -adrenergic receptors in response to hypoxia, 756

mesenteric, acute respiratory acidosis, 1549

systemic, pulmonary, and splanchnic, effects of prostaglandins E<sub>1</sub> and F<sub>2 $\alpha$</sub> , 222

Coagulation, storage, release, and synthesis of factors in isolated perfused organs, 879

Cofactor, angiotensin-protective, 981

#### Cold

ion concentrations and membrane potentials of myometrium during recovery from, 525

metabolism of serum free fatty acid and low-density lipoproteins in rat acclimated to, 19

resistance of Na<sup>+</sup>-K-ATPase of renal cortex to, in hibernating mammal, 321

#### Colon

blood flow and pressure-volume relationships in distended, 35

calcium transport in vitro, 121

electrical slow waves in circular muscle, 771

Cooling, evaporative, partial desalivation, 494

Copper, effect of ceruloplasmin on plasma iron in swine deficient in, 1320

#### Cornea

dependence of thickness of, on epithelial ion transport and stromal sodium, 1169  
 permeability of membranes to water, 635

Coronary occlusion, sympathetic reflex, 703

Cortical activity, thermal stimulation of spinal cord, 858

Corticosteroids, plasma angiotensinogen and renin activity, 1396

Creatine, muscle, 327

- Cyanide, renal concentration and dilution, 1363  
 Cyclopropane, effect on water-<sup>3</sup>H flux across gut, 414  
 Cystathionine, renal excretion, 1199
- D**asyurid marsupials, bioenergetics and body size, 1246  
 Decamethonium, changes in postjunctional receptors, 805  
 Defense behavior, regulation of blood flow to red and white muscle, 541  
 Dehydration, waterbuck, 630  
 Deoxyribonucleic acid, effects of hypoxia and malnutrition on, in tissues of newborn, 642  
 Depolarization  
   of cultured heart cells by lipid-soluble acetylcholine analogue, 625  
   slow diastolic, relation to suppression of latent cardiac pacemaker, 451

 urinary Ca excretion, 1570
- Photoreceptor cells, *Limulus*, responses in presence of barium ions**, 481
- Pituitary gland, intracerebral dexamethasone**, 392
- Plasma**  
 antidiuretic hormone titers with changes in left atrial pressure, 210  
 homeostatic control of osmolality, 431  
 skimming in vitro, influence of absolute flow-rate and rouleau formation, 1339
- Platelets**  
 amino acid uptake, 845  
 effect of adenine compounds on aggregation, 1009  
 effects on volume of temperature and agents affecting aggregation, 1330
- Polarization, electrical, of thyroid follicles**, 1094
- Polyamines, aliphatic, as interaction inhibitors of actomyosin systems**, 743
- Polymerase, RNA, nuclear activity in hemodynamic overload of heart**, 1305
- Pons, area necessary for traumatic stress-induced adrenocorticotropin release under pentobarbital anesthesia**, 84
- Poorwill, physiological responses to heat stress**, 1504
- Postjunctional membrane receptors, decamethonium and carbamylcholine**, 805
- Potassium**  
 cardiac arrest from excess, 1405  
 cardiovascular and respiratory responses to intra-arterial K<sup>+</sup>, 969  
 effect of *p*-aminohippurate on renal excretion, 951  
 influence of interstimulus interval on balance in myocardium, 136  
 influence of nonactin on balance, 131  
 low K<sup>+</sup> conductance of isolated single cultured heart cells, 1076  
 milieu intérieur of bone, 117  
 potentiating effect on skeletal muscle twitch, 898  
 secretion by insect Malpighian tubules, 1520  
 secretion by perfused excretory duct of submaxillary gland, 1324  
 sympathetic vasoconstriction in skeletal muscle, 438  
 uptake by kidney slices, 161  
 urate and PAH uptake by kidney, 1510
- Pregnancy, fetal-maternal temperature differences**, 1619
- Pressure-volume relationships in distended colon**, 35
- Progesterone, uterine blood flow of castrate sows**, 1431
- Prolactin, Ca<sup>++</sup> requirement for secretion of by adenohypophyses**, 1599
- Propanolol**  
 circulating glucose, insulin, free fatty acids, and acetone bodies, 1690

- left ventricular end-diastolic distensibility after, 812
- Prostaglandin, ocular pressure and pupil size, 1593
- Prostaglandin  $E_1$ , terminal vascular bed, 563
- Prostaglandins  $E_1$  and  $F_{2\alpha}$ , effects on systemic, pulmonary, and splanchnic circulations, 222
- Protein
- concentration in capsular renal lymph, 411
  - effects of hypoxia and malnutrition on in tissues of newborn, 642
  - exchange between blood and spinal subarachnoid fluid, 348
  - pentagastrin-induced stimulation of synthesis in gastrointestinal tract, 251
  - plasma, splenectomy, 891
  - subcellular localization in intestinal mucosa, 680
  - synthesis by muscle in vitro, 307
- Purkinje tissue, spontaneous excitation, 451
- Puromycin, release of chylomicrons from intestine, 336
- Pyridine nucleotides
- in livers of hyperthermic rats, 207
  - reduced, depletion in liver and blood with ammonia, 1269
- Pyrogen, granulocytic, partial purification and anticoagulant action, 720
- Pyruvate
- in livers of hyperthermic rats, 207
  - kinetics in isolated perfused hearts, 1752
- R**
- Radioisotopes, disappearance rates to measure forehead blood flow, 1134
- Refractory period of atrium, ventricle, A-V node, and His bundle, 106
- Relaxation, stress, in skeletal muscle, 1665
- Renal artery, reflex cholinergic vasodilation during constriction of, 239
- Renin, effects of corticosteroids on activity, 1396
- Reserpine, change in calcium dependence of arteries after, 1736
- Resistance vessels, functional capacity in adrenal insufficiency, 341
- Respiration
- antelope, 317
  - during perfusion of vertebral arteries with hypocapnic blood, 1178
  - intra-arterial  $K^+$ , 969
  - systemic vasomotor waves, 1375
  - thermal stimulation of spinal cord, 858
- Reticuloendothelial function, endotoxin lethality, 736
- Riboflavin, regulation of enzymes metabolizing, in deficiency of, 988
- Ribonucleic acid
- effects of hypoxia and malnutrition on in tissues of newborn, 642
  - nuclear polymerase activity in hemodynamic overload of heart, 1305
- Ribosomes, regulation of in kidney by androgens, 383
- Rouleau formation, plasma skimming in vitro, 1339
- Rubidium, effect of ammonium chloride on changes in muscle cell bicarbonate induced by, 1105
- Ruminal distension, goats, 397
- Saline**
- loading in water snake, 426
  - renal response to graded challenge, 1604
- Salivary gland
- amino acid secretion and metabolism, 233
  - evaporative cooling, 494
- Sarcoplasmic reticulum, effect of skeletal muscle potentiators on  $Ca^{++}$ , 609
- Sartorius fibers, changes in conductance produced by  $CO_2$ ,  $ReO_4^-$ , and temperature, 1069
- Seal, harbor, adaptations to diving: oxygen stores and supply, 903
- Secretin
- choleretic effects, 532
  - gastric and pancreatic secretion, 1110
  - gastric motility, 1633
  - inhibition of gastric secretion, 1401
  - motor activity of stomach and Heidenhain pouch, 848
- Self-stimulation behavior, medial forebrain bundle lesions, 1253
- Serotonin, mediation of circadian periodicity of plasma 17-hydroxycorticosteroids, 1703
- Serum, metabolism of free fatty acid in cold-acclimated rat, 19
- Sex differences
- effects of phenobarbital on biliary excretion of organic acids, 46
  - heart, 176
- Shark, effects of oligomycin on anaerobic sodium transport and metabolism, 1292
- Shock, hemorrhagic, kidney function, 955
- Sino-aortic reflexes in wakefulness and sleep, 1623
- Skin
- ion transport and lipid content, 1004
  - transmitter release and vascular responses in hypertension, 798
- Sleep
- regulation of blood flow to red and white muscle, 541
  - sino-aortic reflexes and arterial pH,  $PO_2$ , and  $P_{CO_2}$ , 1623
- Snake, water
- adrenal-renal function, 419, 426
  - saline loading and aldosterone, 426
- Sodium
- alterations of ion distribution in ileal smooth muscle, 828
  - effect of furosemide on reabsorption of, by proximal tubule, 192
  - effects of oligomycin on anaerobic metabolism in erythrocytes, 1292
  - efflux in erythrocytes, 605
  - exchangeable, in Goldblatt hypertension, 458
  - fluxes in perfused eel gills, 596
  - measurement of reabsorption by proximal tubule, 199
  - reabsorption by nephron, 6
  - secretion by insect Malpighian tubules, 1520
  - tension induced in slow skeletal muscle by, when deprived of external calcium, 13
  - third-factor renal excretion, 267
  - urate and PAH uptake by kidney, 1510
- Sodium pyruvate, acid-base balance and gas exchange, 1472
- Sodium transport
- across bladder, effect of ambient pH, 652
  - anaerobic, in erythrocytes, effects of oligomycin, 1292
  - epithelial, corneal thickness, 1169
  - mammalian nephron, 498
  - small intestine, 694
- Soybean trypsin inhibitor, secretion of pancreas perfused with plasma from rats fed with, 646
- Spermatozoa, zinc uptake, 1039
- Spikes, electrogenesis in cultured heart cells, 615
- Spinal cord, effect of thermal stimulation of on respiratory and cortical activity, 858
- Spinal subarachnoid fluid, exchange of proteins with blood, 348
- Splenectomy, blood picture, blood volume, and plasma proteins, 891
- Starvation, intestinal amino acid absorption, 747
- Stomach
- effect of secretin on motor activity, 848
  - electrical activity patterns, 461
  - water flow induced by osmotic and hydrostatic pressure, 255
- Stress
- heat, physiological responses in poorwill, 1504
  - relaxation in skeletal muscle, 1665
- Stress, traumatic
- area of pons necessary for adrenocorticotropin release induced by, under pentobarbital anesthesia, 84
  - central nervous system lesions that block release of adrenocorticotropin, 78
- Stretch receptors, extraocular muscle, 332
- Stroma, sodium, corneal thickness, 1169
- Subarachnoid fluid, exchange of proteins with blood, 348
- Submaxillary gland, potassium excretion by excretory duct, 1324
- Sugar, effect of insulin on transport across isolated small intestine, 53
- Sugar transport
- active, osmotic swelling of intestinal epithelial cells during, 753
  - in vivo, by jejunum, 777
- Sulfate, accumulation by intestine, 1101
- Sympathetic nerves, cardiac, location of synaptic connections, 1789
- Sympathetic reflex, coronary occlusion, 703
- Synapses
- cholinergic, 475
  - sympathetic, 1789
- Systemic vasomotor waves, discharge of respiratory neurons, 1375
- T**
- Tectum, vertical distribution of optic nerve fiber terminations, 181
- Temperature
- body, neural regulation of heart rate with rising, 1139
  - changes in conductance of sartorius fibers, 1069
  - fetal brain-maternal aorta differences, 1619
  - internal, behavioral regulation of, 1490
  - light synchronization of deep-body rhythms in *Macaca nemestrina*, 1487
  - platelet volume, 1330
  - series elasticity and contractile element motion in heart muscle, 1030
- Temperature regulation, 494
- Testosterone, effect of isoproterenol on synthesis and secretion rates, 1764

- Thirst  
hypovolemic, inhibition by water, 98  
illumination, 471
- Thyroid gland, electrical polarization of follicles, 1094
- Tilapia scincoides*, behavioral regulation of internal temperature, 1490
- Toadfish  
fluid compartments of islet and other tissues, 1776  
glucose uptake by islet and other tissues, 1784
- Training  
heart and skeletal muscle catecholamine concentration, 1589  
red and white skeletal muscle, 327
- Transmembrane potential, manganese, 1280
- Trauma  
area of pons necessary for adrenocorticotropin release induced by, under pentobarbital anesthesia, 84  
central nervous system lesions that block release of adrenocorticotropin, 78
- Tubules, proximal  
effect of furosemide on sodium reabsorption by, 192  
in vivo perfusion, 992  
iodopyracet transport, 1053  
measurement of sodium reabsorption by, 199  
*p*-aminohippurate transport, 1057  
*p*-aminohippurate uptake and exchange by separated, 1064
- Turtle, ATPase system of bladder epithelium, 1496
- U  
ndecanoate deposition in adipose tissue, 1614
- Urate, effects of K, Na, and ouabain on uptake by kidney, 1510
- Urea, renal excretion, 547
- Uremia, chronic, catabolism of free hydroxyproline, 536
- Urine, effect of illumination on output, 471
- Uterus  
effect of estrogen and progesterone on blood flow in castrate sows, 1431  
estrogenic regulation of carbohydrate metabolism during senescence, 793
- V  
agal stimulation, left ventricular end-diastolic distensibility, 1446
- Vagotomy, insulin-induced acid secretion after partial, 962
- Vascular responses, hindquarters of chronically hypoxic rats, 661
- Vasoconstriction, sympathetic, role of O<sub>2</sub> and K<sup>+</sup> in abolition of in skeletal muscle, 438
- Vasodilatation, reflex cholinergic, during renal artery constriction, 239
- Vasopressin  
hereditary urinary concentrating defects resistant to, 1183  
interactions with amphotericin B and calcium in urinary bladder, 938
- Venom, bee, cytotoxicity for bone marrow stem cells, 965
- Ventricle  
extracellular volume and ionic content, 1230  
membrane excitability, examined by long pulses, 1236
- Ventricle, left  
asynchronous contraction due to late systolic bulging at pacing sites, 215  
end-diastolic distensibility after nor-pinephrine and propanolol, 812
- increased calcium and water concentrations in, in hypertension, 522  
influence of vagal stimulation on end-diastolic distensibility, 1446  
mechanics during arterial counterpulsation, 1352
- Ventricle, right, catecholamines and response of to outflow obstruction, 1565
- Ventricular automaticity, role of adrenal medulla in sympathetic control of, 932
- Viscosity, blood, in several mammalian species, 884
- Vitamin D  
calcium transport by colon in vitro, 121  
in vivo and in vitro effects on calcium transport, 126
- Vitamin K requirement in warfarin-resistant rat, 1316
- W  
arfarin, metabolism in rat resistant to, 1316
- Water  
balance in antelope, 317  
balance in waterbuck, 630  
effect of illumination on intake, 471  
flow induced by osmotic and hydrostatic pressure in stomach, 255  
increased concentration of in left ventricle in hypertension, 522  
inhibition of hypovolemic thirst, 98  
in papillary region of kidney, 58  
micropuncture study of transport by jejunal villi in vitro, 1528  
permeability of corneal membranes, 635  
structure with anesthetic gas in tissue, 414
- Waterbuck, water relations, 630
- Wildebeest, thermal panting, 907
- Z  
ebu cattle, thermal panting, 907
- Zinc uptake in spermatozoa, 1039

# Contents of Volume 217

## Key to Sections:

1. Circulation
2. Respiration

## 3. Renal & Electrolyte Physiology

4. Gastrointestinal Physiology
5. Endocrinology & Metabolism

## 6. Environmental Physiology & Exercise

7. Comparative Physiology
8. General Physiology

## 9. Neurophysiology

10. Hematology
11. Muscle Physiology

No. 1, JULY 1969

SECTION

PAGE

3	Mechanism of natriuretic action of bradykinin. Willis, L. R., J. H. Ludens, J. B. Hook, and H. E. Williamson. . . . .	1
1, 3	Relationship between extracellular volume and fluid reabsorption by the rat nephron. Brenner, B. M., and R. W. Berliner. . . . .	6
11	Sodium-induced tension in slow skeletal muscle deprived of external calcium. Irwin, R. L., and K. L. Oliver. . . . .	13
5, 6	Metabolism of serum free fatty acid and low-density lipoproteins in the cold-acclimated rat. McBurney, L. J., and M. W. Radomski. . . . .	19
1	Arterial hypertension in the squirrel monkey during behavioral experiments. Herd, J. A., W. H. Morse, R. T. Kelleher, and L. G. Jones. . . . .	24
1	Behavioral induction of arterial hypertension and its reversal. Benson, H., J. A. Herd, W. H. Morse, and R. T. Kelleher. . . . .	30
1, 4	Pressure-volume relationships and blood flow in the distended colon. Hanson, K. M., and F. T. Moore. . . . .	35
3, 4	Effect of luminal chloride concentration on bicarbonate secretion in rat ileum. Hubel, K. A. . . . .	40
4, 5, 8	Effects of phenobarbital on biliary excretion of organic acids in male and female rats. Hart, L. G., A. M. Guarino, and R. H. Adamson. . . . .	46
4, 5	Effect of insulin on sugar and amino acid transport across isolated small intestine. Fromm, D., M. Field, and W. Silen. . . . .	53
3	Solids, water, and solutes in papillary region of the rat kidney. Gardner, K. D., Jr., and J. M. Vierling. . . . .	58
1	Combined effects of aortic and right atrial pressures on aortic flow. Herndon, C. W., and K. Sagawa. . . . .	65
2, 5	Neutralization of airway effects of bradykinin by antibodies. Davis, T. R. A., and T. L. Goodfriend. . . . .	73
5, 9	Central nervous system lesions that block release of ACTH caused by traumatic stress. Gibbs, F. P. . . . .	78
5, 9	Area of pons necessary for traumatic stress-induced ACTH release under pentobarbital anesthesia. Gibbs, F. P. . . . .	84
9	Uptake of iodide by choroid plexus in vivo and location of the iodide pump. Cohen, L. A. . . . .	89
3	Osmoregulation and volume regulation in rats: inhibition of hypovolemic thirst by water. Stricker, E. M. . . . .	98
1	Cumulative effects of cycle length on refractory periods of cardiac tissues. Han, J., and G. K. Moe. . . . .	106
2, 5, 6	Diminution of lactate rise during hypoxia by $P_{CO_2}$ and $\beta$ -adrenergic blockade. Cain, S. M. . . . .	110
3	Potassium and the milieu intérieur of bone. Canas, F., A. R. Terepka, and W. R. Neuman. . . . .	117
3, 4, 5	Calcium transport by rat colon in vitro. Harrison, H. C., and H. E. Harrison. . . . .	121
4, 5, 8	Comparison of in vivo and in vitro effects of vitamin D on calcium transport in the rat. Urban, E., and H. P. Schedl. . . . .	126
1, 3	Influence of nonactin on myocardial performance, $O_2$ consumption, and $K^+$ balance. Gilmore, J. P., E. D. Gerlings, and D. T. Miller. . . . .	131
1, 3	Influence of interstimulus interval on myocardial potassium balance. Gilmore, J. P., and E. D. Gerlings. . . . .	136
1, 2, 9	Termination and secondary projections of carotid sinus nerve in the cat brain stem. Miura, M., and D. J. Reis. . . . .	142
1, 11	Responses of aortic smooth muscle studied in intact dogs. Pieper, H. P., and L. T. Paul. . . . .	154
3, 5, 8	$\alpha$ -Ketoglutarate metabolism and $K^+$ uptake by dog kidney slices. Cohen, J. J., R. W. Chesney, P. H. Brand, H. F. Neville, and C. F. Blanchard. . . . .	161
1, 2	Pulmonary edema as a result of endotoxemia. Snell, J. D., Jr., and L. H. Ramsey. . . . .	170
1	Effects of age, sex, and breeding status on the rat heart. Shreiner, D. P., M. L. Weisfeldt, and N. W. Shock. . . . .	176
7, 9	Vertical distribution of optic nerve fiber terminations in the frog optic tectum. Peretz, B. . . . .	181
9	Accumulation of material at severed ends of myelinated nerve fibers. Johnson, G., R. S. Smith, and G. S. H. Lock. . . . .	188
3	Effect of furosemide on sodium reabsorption by proximal tubule of the dog. Knox, F. G., F. S. Wright, S. S. Howards, and R. W. Berliner. . . . .	192
3	Measurement of sodium reabsorption by proximal tubule of the dog. Wright, F. S., S. S. Howards, F. G. Knox, and R. W. Berliner. . . . .	199
5, 6	Liver pyridine nucleotides, lactate, and pyruvate in hyperthermic rats. Frascella, D., and H. M. Frankel. . . . .	207
1, 3, 5	Small changes in left atrial pressure and plasma antidiuretic hormone titers in dogs. Johnson, J. A., W. W. Moore, and W. E. Segar. . . . .	210
1	Asynchronous contraction due to late systolic bulging at left ventricular pacing sites. Hood, W. B., Jr., J. Joison, W. H. Abelmann, and J. C. Norman. . . . .	215
1	Effects of prostaglandins $E_1$ and $F_{2\alpha}$ on systemic, pulmonary, and splanchnic circulation in dogs. Nakano, J., and B. Cole. . . . .	222
4, 5, 9	Relationship of gastric secretion to food intake in lactating rats. Long, J. F. . . . .	228
4, 5, 8	Amino acid secretion and metabolism by dog salivary glands. Lindsay, R. H., O. L. Catanzaro, and R. W. Hanson. . . . .	233
1, 3, 9	Reflex cholinergic vasodilatation during renal artery constriction in the unanesthetized dog. Stinson, J. M., A. B. Barnes, R. M. Zakheim, J. E. Chimoskey, F. R. Spinelli, and A. C. Barger. . . . .	239

SECTION		PAGE
3, 7	Development of renal accumulation of organic ions by chick embryo. <i>Rennick, B. R.</i> .....	247
4, 5	Pentagastrin-induced stimulation of protein synthesis in the gastrointestinal tract. <i>Johnson, L. R., D. Aures, and L. Yuen</i> .....	251
4, 8	Water flow induced by osmotic and hydrostatic pressure in the stomach. <i>Moody, F. G., and R. P. Durbin</i> .....	255
4, 4	Gastrin-related peptides as stimulants of pancreatic and gastric secretion. <i>Stening, G. F., and M. I. Grossman</i> .....	262
1, 3, 5	Renal substrates and effect of lipokinetic arylamines on third-factor sodium excretion. <i>Waugh, W. H., and T. Kubo</i> .....	267
1, 3, 5	Development of an isolated perfused dog kidney with improved function. <i>Waugh, W. H., and T. Kubo</i> .....	277
1, 11	Myocardial oxygen consumption associated with external work: the Fenn effect. <i>Coleman, H. N., E. H. Sonnenblick, and E. Braunwald</i> .....	291
5, 10	Erythropoietic activity of marrow and disappearance rate of erythropoietin in the rat. <i>Naets, J. P., and M. Wittek</i> .....	297
1, 11	Cardiac muscle mechanics in hyperosmotic solutions. <i>Wildenthal, K., C. L. Skelton, and H. N. Coleman III</i> .....	302
5, 11	Protein synthesis by red and white muscle in vitro: effect of insulin and animal age. <i>Short, F. A.</i> .....	307
4	Hydrogen ion transport by isolated rabbit gallbladder. <i>Whitlock, R. T., and H. O. Wheeler</i> .....	310
2, 6, 7	Metabolism, respiratory changes, and water balance of an antelope, the eland. <i>Taylor, C. R.</i> .....	317
3, 7, 8	Cold resistance of Na- K-ATPase of renal cortex of the hamster, a hibernating mammal. <i>Willis, J. S., and N. M. Li</i> .....	321
No. 2. AUGUST 1969		
6, 11	Influence of exercise training on red and white rat skeletal muscle. <i>Short, F. A., L. A. Cobb, I. Kawabori, and C. J. Goodner</i> .....	327
9, 11	Afferent discharges from extraocular muscle in the squirrel monkey. <i>Ito, F., and P. Bach-y-Rita</i> .....	332
4, 5	Does puromycin block release of chylomicrons from the intestine? <i>Redgrave, T. G., and D. B. Zilversmit</i> .....	336
1, 5	Functional capacity of resistance and capacitance vessels in adrenal insufficiency. <i>Verrier, R. L., T. J. O'Neill, and A. M. Lefer</i> .....	341
7, 8, 9	Exchange of proteins between blood and spinal subarachnoid fluid. <i>Hochwald, G. M., M. W. Wallenstein, and E. Mathews</i> .....	348
2	Effects of metabolism and distribution of carbon monoxide on blood and body stores. <i>Luomanmäki, K., and R. F. Coburn</i> .....	354
11	Activation of contractile system in depolarized skeletal muscle fibers. <i>Parsons, R. L., and W. L. Nastuk</i> .....	364
4, 5, 8	Influence of sex hormones on gastric acid secretion in the guinea pig. <i>Katz, S., F. Herr, and B. A. Kovacs</i> .....	370
1, 9, 11	Synchronization and conduction of excitation in the rat aorta. <i>Biamino, G., and P. Kruckenberg</i> .....	376
5	Ribosomes of mouse kidney: regulation by androgens. <i>Kochakian, C. D., M. Nishida, and T. Hirone</i> .....	383
5	Effects of intracerebral dexamethazone on pituitary-adrenal function in female rats. <i>Zimmermann, E., and V. Critchlow</i> .....	392
4, 5, 7	Feeding behavior of goats: ruminal distension, ingesta dilution, and acetate concentration. <i>Baile, C. A., J. Mayer, and C. McLaughlin</i> .....	397
5, 9	Radio-frequency-current and direct-current lesions in the ventromedial hypothalamus. <i>Herrero, S.</i> .....	403
3	Flow and protein concentration of capsular renal lymph in the conscious dog. <i>Henry, L. P., M. J. Keyl, and R. D. Bell</i> .....	411
3, 4, 8	Anesthetic gas and water structure: cyclopropane effect on water- <sup>3</sup> H flux across the gut. <i>Berger, E. Y., F. R. Pecikyan, and G. Kanzaki</i> .....	414
3, 5, 7	Adrenal-renal function in water snakes <i>Natrix cyclopion</i> . <i>Elizondo, R. S., and S. J. LeBrie</i> .....	419
3, 5, 7	Saline loading and aldosterone in water snakes <i>Natrix cyclopion</i> . <i>LeBrie, S. J., and R. S. Elizondo</i> .....	426
3	Homeostatic control of plasma osmolality in the dog and the effect of ethanol. <i>Millerschoen, N. R., and D. S. Riggs</i> .....	431
1	Role of O <sub>2</sub> and K <sup>+</sup> in abolition of sympathetic vasoconstriction in dog skeletal muscle. <i>Skinner, N. S., Jr., and J. C. Costin</i> .....	438
1, 5, 11	Activation of cardiac glycogen phosphorylase by calcium. <i>Friesen, A. J. D., N. Oliver, and G. Allen</i> .....	445
1	Suppression of latent cardiac pacemaker: relation to slow diastolic depolarization. <i>Vick, R. L.</i> .....	451
1, 3	Contrasting exchangeable sodium in rats with different types of Goldblatt hypertension. <i>Tobian, L., K. Coffee, and P. McCrea</i> .....	458
4	Patterns of canine gastric electrical activity. <i>Kelly, K. A., C. F. Code, and L. R. Elveback</i> .....	461
3, 5	Effect of illumination on water intake, thirst, and urine output in the rat. <i>Gutman, Y., F. Benzakein, and M. Chaimovitz</i> .....	471
9	Cholinergic synapses of a periventricular punishment system in the medial hypothalamus. <i>Margules, D. L., and L. Stein</i> .....	475
9	All-or-none responses of <i>Limulus</i> photoreceptor cells in presence of barium ions. <i>Gorn, R. A.</i> .....	481
9	Production of hypothalamic obesity by microsurgery. <i>Jansen, G. R., and C. F. Huchison</i> .....	487
6	Evaporative cooling in the rat: effects of partial desalivation. <i>Hainsworth, F. R., and E. M. Stricker</i> .....	494
3	Micropuncture studies on energy metabolism and sodium transport in the mammalian nephron. <i>Weinstein, S. W., and R. M. Klose</i> .....	498
4, 8, 9	Possible role of amygdala in regulation of gastric secretion in chronic fistula rats. <i>Lee, Y. H., J. H. Thompson, and J. J. McNew</i> .....	505
5	Myocardial FFA metabolism during coronary infusion of norepinephrine in conscious dogs. <i>Cowley, A. W., J. C. Scott, and J. J. Spitzer</i> .....	511
1	Separation of acute and delayed hemodynamic responses to endotoxin in the cat. <i>Greenway, G. V., W. W. Loutt, and R. D. Stark</i> .....	518
1, 3, 11	Increased calcium and water concentrations in the left ventricle of hypertensive rats. <i>Tobian, L., and M. Duke</i> .....	522

SECTION		PAGE
5, 8, 11	Ion concentrations and membrane potentials of myometrium during recovery from cold. <i>Kao, C. Y., and A. Nishiyama</i> .....	525
4	Choleretic effects of secretin and histamine in the dog. <i>Jones, R. S., and M. I. Grossman</i> .....	532
3, 5, 8	Catabolism of free hydroxyproline in chronic uremia. <i>Avioli, L. V., C. Scharp, and S. J. Birge</i> .....	536
1, 9, 11	Differential regulation of blood flow to red and white muscle in sleep and defense behavior. <i>Reis, D. J., D. Moorhead, and G. F. Wooten</i> .....	541
3	Renal excretion of <i>N</i> -acetyl-4-aminoantipyrine in the dog. <i>Rabinowitz, L., R. B. Wagman, and A. B. Thompson</i> .....	547
3, 8	Renal tubular handling of glycerol and ethylene glycol in the dog. <i>Swanson, R. E., and R. B. Thompson</i> .....	553
1	Influence of prostaglandin $E_1$ on the terminal vascular bed. <i>Weiner, R., and G. Kaley</i> .....	563
1, 5	Rapid flow of blood through pituitary autografts in the rat. <i>Goldman, H., and M. B. Nikitovich-Winer</i> .....	567
3	Osmotic flow across proximal tubule of <i>Necturus</i> : correlation of physiologic and anatomic studies. <i>Bentzel, C. J., B. Parsa, and D. K. Hare</i> .....	570
5, 6, 11	Energy balance of anaerobic work in the dog gastrocnemius muscle. <i>Cerretelli, P., P. E. di Prampero, and J. Piiper</i> .....	581
1	Comparison of autoregulatory escape and autoregulation in the intestinal vascular bed. <i>Richardson, D. R., and P. C. Johnson</i> .....	586
8, 11	Myoglobin synthesis of embryo and adult avian tissue studied immunologically. <i>Kagen, L., S. Linder, and R. Gurevich</i> .....	591
1, 3, 7	Ventral aortic pressure and sodium fluxes in perfused eel gills. <i>Kirschner, L. B.</i> .....	596
3, 7, 8	Sodium efflux in rabbit erythrocytes. <i>Rettori, O., V. Rettori, J. V. Maloney, and M. F. Villamil</i> .....	605
1, 7, 11	Effect of skeletal muscle potentiators on $Ca^{++}$ in cardiac sarcoplasmic reticulum. <i>Naylor, W. G., and D. Chipperfield</i> .....	609
1, 8, 11	Spike electrogenesis in cultured heart cells. <i>Pappano, A. J., and N. Sperelakis</i> .....	615
1, 8, 11	Depolarization of cultured heart cells by a lipid-soluble acetylcholine analogue. <i>Sperelakis, N., and A. J. Pappano</i> .....	625
6, 7	Water relations of the waterbuck, an East African antelope. <i>Taylor, C. R., C. A. Spinage, and C. P. Lyman</i> .....	630
No. 3. SEPTEMBER 1969		
3, 8	Permeability to water of rabbit corneal membranes. <i>Green, K., and M. A. Green</i> .....	635
2, 8, 9	Hypoxia and malnutrition in newborn rats: effects on RNA, DNA, and protein in tissues. <i>Check, D. B., J. E. Graystone, and R. D. Rowe</i> .....	642
4, 5	Secretion of rat pancreas perfused with plasma from rats fed soybean trypsin inhibitor. <i>Khayambashi, H., and R. L. Lyman</i> .....	646
3	Effect of ambient pH on sodium transport across isolated turtle bladders. <i>Gentile, D. E., and W. A. Brodsky</i> .....	652
1, 6	Hindquarters vascular responses in chronically hypoxic rats. <i>Aoki, V. S., and S. M. Robinson</i> .....	661
1, 11	Arterial actomyosin: Mg, Ca, and ATP ion dependencies for ATPase activity. <i>Murphy, R. A., D. F. Bohr, and D. L. Newman</i> .....	666
4, 7, 8	Calcium and magnesium contents of gastrointestinal tissues in six species. <i>Cassidy, M. M., and C. S. Tidball</i> .....	674
3, 4, 8	Subcellular localization of calcium, magnesium, and protein in canine intestinal mucosa. <i>Cassidy, M. M., A. M. Goldner, and C. S. Tidball</i> .....	680
5, 8, 11	Differential patterns of glycogen metabolism in cardiac and skeletal muscles. <i>Adronov, G. A.</i> .....	686
4, 7, 8	Sodium and chloride transport by isolated bullfrog small intestine. <i>Quay, J. F., and W. McD. Armstrong</i> .....	694
1, 4, 9	A sympathetic reflex elicited by experimental coronary occlusion. <i>Malliani, A., P. J. Schwartz, and A. Zanchetti</i> .....	703
1	Acute and chronic cardiovascular adjustments to induced anemia in dogs. <i>Neill, W. A., J. M. Oxendine, and S. C. Moore</i> .....	710
5, 11	Effect of octanoate on carbohydrate metabolism in red and white muscle of the rhesus monkey. <i>Cassens, R. G., R. M. Bocek, and C. H. Beatty</i> .....	715
8, 10	Granulocytic pyrogen: partial purification and demonstration of anticoagulant action. <i>Herion, J. C., H. I. Saba, R. I. Walker, and H. R. Roberts</i> .....	720
1	Adrenergic support of cardiac function during hypoxia in the newborn lamb. <i>Downing, S. E., T. H. Gardner, and J. M. Rocamora</i> .....	728
1, 5, 10	Relationship of reticuloendothelial functional activity to endotoxin lethality. <i>Crafton, C. G., and N. R. Di Luzio</i> .....	736
11	Aliphatic polyamines as interaction inhibitors of actomyosin systems. <i>Nagai, T., M. Takauji, and S. Takahashi</i> .....	743
5	Effect of starvation on intestinal amino acid absorption. <i>Steiner, M., and S. J. Gray</i> .....	747
4	Osmotic swelling of intestinal epithelial cells during active sugar transport. <i>Csáky, T. Z., and G. Esposito</i> .....	753
1	Role of beta-adrenergic receptors in the circulatory response to hypoxia. <i>Kontos, H. A., and R. R. Lower</i> .....	756
1	Renal vascular responses to isoproterenol. <i>Mark, A. L., J. W. Eckstein, F. M. Abboud, and M. G. Wendling</i> .....	764
1, 7, 9	Vagal afferent depressor nerves in the rabbit. <i>Pillsbury, H. R. C. III, M. Guazzi, and E. D. Freis</i> .....	768
4, 11	Electric slow waves in circular muscle of cat colon. <i>Christensen, J., R. Caprilli, and G. F. Lund</i> .....	771
4, 8	Evaluation of components of transport of sugars by dog jejunum in vivo. <i>Levitt, D. G., A. A. Hakim, and N. Lifson</i> .....	777
5, 9	Metabolic interactions of glucose, lactate, and $\beta$ -hydroxybutyrate in rat brain slices. <i>Ide, T., J. Steinke, and G. F. Cahill, Jr.</i> .....	784
5	Estrogenic regulation of uterine carbohydrate metabolism during senescence. <i>Singhal, R. L., J. R. E. Valadares, and G. M. Ling</i> .....	793
1, 3	Transmitter release and vascular responses in skin and muscle of hypertensive dogs. <i>Zimmerman, B. G., T. F. Rolewicz, E. W. Dunham, and J. L. Gisslen</i> .....	798
8, 9, 11	Changes in postjunctional receptors with decamethonium and carbamylcholine. <i>Parsons, R. L.</i> .....	805
1	Left ventricular end-diastolic distensibility after norepinephrine and propranolol. <i>Wildenthal, K., C. B. Mullins, M. D. Harris, and J. H. Mitchell</i> .....	812

SECTION		PAGE
1, 11	Sympathetic and hemodynamic effects on capacitance vessels in dog skeletal muscle. <i>Lesh, T. A., and C. F. Rothe</i> . . .	819
4, 11	Alterations of $^{22}\text{Na}$ distribution in ileal smooth muscle. <i>Weiss, G. B.</i> . . .	828
1, 4	Distribution of blood flow in various selected areas of small and large intestine in the dog. <i>Goodhead, B.</i> . . .	835

Page 1069: B. B. Howe and M. M. Winbury, "Effect of acute coronary occlusion on myocardial nutritional circulation in swine." Page 1071: figures 2 and 3 should be reversed.

## Volume 216, June 1969

Page 1525: C. J. Parli et al., "Pyruvate metabolism in mammalian liver." Page 1532: the journal reference in item 43 should read *J. Biol. Chem.* 238: 17-20, 1963.

## Volume 217, September 1969

Page 798: B. G. Zimmerman et al., "Transmitter release and vascular responses in skin and muscle of hypertensive dogs." Page 801: the values of 9.1 and 12.9 cm<sup>2</sup> for the areas of the vasoconstrictor responses in Table 3 were indicated previously as not being significantly different. These values differ significantly at the  $P < 0.05$  level.
